SUBJECT INDEX TO VOLUME 75, 1996

Explanation of Symbols:

The page number on which an article begins is listed at the end of that article's title. An article may appear under more than one heading.

Author names are listed alphabetically. Numbers listed after each name are the page numbers of the article(s) on which that name appears.

Page numbers followed by @ represent presentations at the Symposium "Toward Responsible Research Conduct: The Role of Scientific Societies."

Page numbers followed by * represent papers reporting on Phase I of the National Health and Nutrition Examination Survey (NHANES III)

AADR (see IADR/AADR)

ABC TRANSPORTERS
Ins and outs of antimicrobial resistance: era of the drug pumps. Jenkinson, H.F., 736

ABNORMALITIES
Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747
Palatal displacement of canine is genetic and related to congenital absence of teeth. Pirinen, S., *et al.*, 1742

ABRASION (see Tooth Abrasion)

ABRASION RESISTANCE
Early and long-term wear of conventional and resin-modified glass ionomers. de Gee, A.J., *et al.*, 1613

ABSTRACTS
Abstracts, IADR/AADR, 17-440
Divisional abstracts, 1056-1330

ACETONE
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851

ACID ETCHING, DENTAL
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418
Resin permeation into acid-conditioned, moist, and dry dentin: a paradigm using water-free adhesive primers. Tay, F.R., *et al.*, 1034
Shear strength of composite bonded to Er:YAG laser-prepared dentin. Visuri, S.R., *et al.*, 599

ACID PHOSPHATASE
Hydrolysis of triclosan monophosphate by dental plaque and selected species of oral micro-organisms. Greenman, J. and Nelson, D.G.A., 1578

ACIDS
Accumulation of fermentable sugars and metabolic acids in food particles that become entrapped on the dentition. Kashket, S., *et al.*, 1885
Early and long-term wear of conventional and resin-modified glass ionomers. de Gee, A.J., *et al.*, 1613

ACRYLATES
Design and development of isocyanatoacrylates as dental adhesives. Chappelow, C.C., *et al.*, 761

ACRYLIC RESINS
Dental materials developments in the UK: a personal view. McLean, J.W., 1816

ACTINOMYCES
Effects of Actinomyces amphiphile on the fluidity of endothelial cells: a spin label study. Hamada, Y., 1002
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

ADHESION, BACTERIAL (see Bacterial Adhesion)

ADHESION MOLECULES (see Cell Adhesion Molecules)

ADHESIVES
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859
Design and development of isocyanatoacrylates as dental adhesives. Chappelow, C.C., *et al.*, 761
New surface-active comonomer for adhesive bonding. Bowen, R.L., *et al.*, 606

ADOLESCENCE
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*

ADSORPTION
Temporal and compositional characteristics of salivary protein adsorption to hydroxyapatite. Lamkin, M.S., 803

AFRICA
Cariogenicity depends more on diet than the prevailing mutans streptococcal species. van Palenstein Helderman, W.H., *et al.*, 535

AFRICAN AMERICANS
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

AGE FACTORS
Comparison of the ability of intra-oral and extra-oral fibroblasts to stimulate extracellular matrix reorganization in a model of wound contraction, A. Stephens, P., *et al.*, 1358
Coronal and root caries in the dentition of adults in the United States, 1988-1991. Winn, D.M., *et al.*, 642*
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*
Denture use and the technical quality of dental prostheses among persons 18-74 years of age: United States, 1988-1991. Redford, M., *et al.*, 714*
Flow rate of unstimulated human labial gland saliva, The. Ferguson, D.B., 980
Microvascular luminal volume changes in aged mouse periodontal ligament. Sims, M.R., *et al.*, 1503
Overview of the oral health component of the 1988-1991 National Health and Nutrition Examination Survey (NHANES III-Phase 1), An. Drury, T.F., *et al.*, 620*
Periodontal status in the United States, 1988-91: prevalence, extent, and demographic variation. Brown, L.J., *et al.*, 672*
Prevalence and distribution of selected occlusal characteristics in the US population, 1988-1991. Brunelle, J.A., *et al.*, 706*
Prevalence of dental sealants in the US population: findings from NHANES III, 1988-91, The. Selwitz, R.H., *et al.*, 652*
Prevalence of incisor trauma in persons 6 to 50 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 696*
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*
Tooth retention and tooth loss in the permanent dentition of adults: United States, 1988-1991. Marcus, S.E., *et al.*, 684*
Use of the Weibull Hazard model to estimate age-specific probability of permanent tooth loss. Otani, K., *et al.*, 1458

AGED
Incidence of and risk factors for tooth loss in a population of older Canadians. Locker, D., *et al.*, 783
Microvascular luminal volume changes in aged mouse periodontal ligament. Sims, M.R., *et al.*, 1503
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

AIR
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851

ALCOHOL, ETHYL
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851

ALKALINE PHOSPHATASE
Hydrolysis of triclosan monophosphate by dental plaque and selected species of oral micro-organisms. Greenman, J. and Nelson, D.G.A., 1578

ALLOYS, DENTAL (see Dental Alloys)

ALTERNATIVE MEDICINE
Guest editorial: alternative medicine: more than chicken soup? Barnett, M.L., 1721

ALTERNATIVE SPLICING
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735
Cloning, DNA sequence, and alternative splicing of opossum amelogenin mRNAs. Hu, C.-C., *et al.*, 1728

ALVEOLAR NERVE, INFERIOR (see Mandibular Nerve)

AMELOBLASTS
Induced hypoxia in rat pulp and periapex demonstrated by ^{3}H-misonidazole retention. Baumgardner, K.R., *et al.*, 1753

AMELOGENESIS
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735
Cloning, DNA sequence, and alternative splicing of opossum amelogenin mRNAs. Hu, C.-C., *et al.*, 1728
Protein characterization of fluorosed human enamel. Wright, J.T., *et al.*, 1936

AMINES
New surface-active comonomer for adhesive bonding. Bowen, R.L., *et al.*, 606

AMINO ACIDS
Protein characterization of fluorosed human enamel. Wright, J.T., *et al.*, 1936

AMYLASES
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789

ANGIOGENESIS FACTOR
Angiogenesis in human dental pulp following orthodontic tooth movement. Derringer, K.A., *et al.*, 1761

ANODONTIA
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate genes. Arte, S., *et al.*, 1346
Palatal displacement of canine is genetic and related to congenital absence of teeth. Pirinen, S., *et al.*, 1742

ANTIBIOTIC PROPHYLAXIS
Dentists' role in halting antimicrobial resistance. Slots, J. and Pallasch, T.J., 1338, 1811 (*Erratum*)
Guest editorial: Antimicrobials in dentistry: with knowledge comes responsibility. Loesche, W.J., 1432

ANTIBIOTIC RESISTANCE (see Drug Resistance, Microbial)

ANTIBODIES, MONOCLONAL
Differential expression of human high-molecular-weight salivary mucin (MG1) and low-molecular-weight salivary mucin (MG2). Nielsen, P.A., *et al.*, 1820

ANTIGENS, CD44
CD44-hyaluronate interaction participates in the adherence of T-lymphocytes to gingival fibroblasts. Murakami, S., *et al.*, 1545

ANTIGENS, CD59
Protection of gingival epithelium against complement-mediated damage by strong expression of the membrane attack complex inhibitor protectin (CD59). Rautemaa, R. and Meri, S., 568

ANTIGENS, CD95
Identification of the Fas antigen in human gingiva. Yoshioka, C., *et al.*, 1353

APATITES
Surface spectroscopy of apatitic materials: limitations and concerns. Wieliczka, D.M., *et al.*, 1865

APHTHOUS ULCER (see Stomatitis, Aphthous)

APOPTOSIS
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664
Identification of the Fas antigen in human gingiva. Yoshioka, C., *et al.*, 1353

ART
Guest editorial: art and science, culture and dental research. Newman, H.N., 526

AUSTRALIA
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

AUTONOMIC NERVOUS SYSTEM
Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637

AZADIRACHTA INDICA
Inhibiting effect of aqueous *Azadirachta indica* (Neem) extract upon bacterial properties influencing *in vitro* plaque formation. The. Wolinsky, L.E., *et al.*, 816

BACTERIA
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008
Hydrolysis of triclosan monophosphate by dental plaque and selected species of oral micro-organisms. Greenman, J. and Nelson, D.G.A., 1578
Prediction of secondary caries around tooth-colored restorations: a clinical and microbiological study. Kidd, E.A.M. and Beighton, D., 1942

BACTERIAL ADHESION
Co-adhesion of oral microbial pairs under flow in the presence of saliva and lactose. Bos, R., *et al.*, 809
Inhibiting effect of aqueous *Azadirachta indica* (Neem) extract upon bacterial properties influencing *in vitro* plaque formation. The. Wolinsky, L.E., *et al.*, 816

BACTERIAL OUTER MEMBRANE PROTEINS
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

BASAL CELL NEVUS SYNDROME
Syndromes, syndromes, and more syndromes. Gorlin, R.J., 732

BASE SEQUENCE
Cloning, DNA sequence, and alternative splicing of opossum amelogenin mRNAs. Hu, C.-C., *et al.*, 1728

BETA 2-MICROGLOBULIN
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562

BICUSPID
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate genes. Arte, S., *et al.*, 1346

BIFIDOBACTERIUM
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008

BIOCOMPATIBLE MATERIALS
Surface spectroscopy of apatitic materials: limitations and concerns. Wieliczka, D.M., *et al.*, 1865

BIOLOGICAL TRANSPORT, ACTIVE
Ins and outs of antimicrobial resistance: era of

the drug pumps. Jenkinson, H.F., 736

BIOMECHANICS
Anatomic and directional variation in the mechanical properties of the mandibular condyle in pigs. Teng, S. and Herring, S.W., 1842

BISPHOSPHONATES (see Diphosphonates)

BITE FORCE
Jaw muscle orientation and moment arms of long-face and normal adults. van Spronsen, P.H., *et al.*, 1372

BITE REGISTRATION (see Jaw Relation Record)

BLACKS (see African Americans)

BLOOD SUPPLY
Microvascular luminal volume changes in aged mouse periodontal ligament. Sims, M.R., *et al.*, 1503

BONDING, DENTAL (see Dental Bonding)

BONE MATRIX
Effect of demineralized bone matrix on the healing of intramembranous bone grafts in rabbit skull defects, The. Rabie, A.B.M., *et al.*, 1045

BONE MINERALIZATION (see Calcification, Physiologic)

BONE MORPHOGENETIC PROTEINS
Expression of bone morphogenetic proteins by osteoinductive and non-osteoinductive human osteosarcoma cells. Raval, P., *et al.*, 1518

BONE RESORPTION
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562

BONE TRANSPLANTATION
Effect of demineralized bone matrix on the healing of intramembranous bone grafts in rabbit skull defects, The. Rabie, A.B.M., *et al.*, 1045

BORANES
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859

BRIDGE, RESIN-BONDED (see Denture, Partial, Fixed, Resin-Bonded)

BRIDGEWORK, DENTAL (see Denture, Partial)

BRUXISM
Sleep bruxism: validity of clinical research diagnostic criteria in a controlled polysomnographic study. Lavigne, G.J., *et al.*, 546
Striatal D2 receptor binding in sleep bruxism: a controlled study with iodine-123-iodobenzamide and single-photon-emission computed tomography. Lobbezoo, F., *et al.*, 1804

BUONOCORE, MICHAEL
Michael Buonocore and the Eastman Dental Center: a historic perspective on sealants. Handelman, S.L. and Shey, Z., 529

CALCIFICATION, PHYSIOLOGIC
Electrophoretic gels of dentin matrix proteins as diffusion media for *in vitro* mineralization. Wada, Y., *et al.*, 1381

CALCIUM COMPOUNDS
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418

CALCIUM HYDROXIDE
Immunolocalization of fibronectin during reparative dentinogenesis in human teeth after pulp capping with calcium hydroxide. Yoshiba, K., *et al.*, 1590

CALCIUM PHOSPHATES
Assessment of the efficacy of amorphous calcium phosphate/methacrylate composites in remineralizing caries-like lesions artificially produced in bovine enamel. Skrtic, D., *et al.*, 1679
Constant composition dissolution kinetics studies of human dentin. Paschalis, E.P., *et al.*, 1019
Electrophoretic gels of dentin matrix proteins as diffusion media for *in vitro* mineralization. Wada, Y., *et al.*, 1381

CAMPYLOBACTER
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

CANADA
Incidence of and risk factors for tooth loss in a population of older Canadians. Locker, D., *et al.*, 783
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

CANDIDA
Ins and outs of antimicrobial resistance: era of the drug pumps. Jenkinson, H.F., 736
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901
Reactivity of *Candida albicans* germ tubes with salivary secretory IgA. Pontón, J., *et al.*, 1979

CANINE TOOTH (see Cuspid)

CAPNOCYTOPHAGA
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

CARBOHYDRATES
Accumulation of fermentable sugars and metabolic acids in food particles that become entrapped on the dentition. Kashket, S., *et al.*, 1885
Emergence of multiple xylitol-resistant (fructose PTS^-) mutants from human isolates of mutans streptococci during growth on dietary sugars in the presence of xylitol. Trahan, L., *et al.*, 1892
Taste preference for sweetness in urban and rural populations in Iraq. Jamel, H.A., *et al.*, 1879

CARIOGENIC AGENTS
Accumulation of fermentable sugars and metabolic acids in food particles that become entrapped on the dentition. Kashket, S., *et al.*, 1885

CARIOSTATIC AGENTS
Meta-analysis of clinical studies on the caries-inhibiting effect of chlorhexidine treatment, A. van Rijkom, H.M., *et al.*, 790

CARRIER PROTEINS
Ins and outs of antimicrobial resistance: era of the drug pumps. Jenkinson, H.F., 736

CARTILAGE
Electrical stimulation of masseter muscles maintains condylar cartilage in long-term organ culture. Pirttiniemi, P. and Kantomaa, T., 1365

CASEINS
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779

CATS
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650

CATTLE
Assessment of the efficacy of amorphous calcium phosphate/methacrylate composites in remineralizing caries-like lesions artificially produced in bovine enamel. Skrtic, D., *et al.*, 1679

CD44 (see Antigens, CD44)

CD59 (see Antigens, CD59)

CD95 (see Antigens, CD95)

cDNA (see DNA, Complementary)

CELL ADHESION MOLECULES
CD44-hyaluronate interaction participates in the adherence of T-lymphocytes to gingival fibroblasts. Murakami, S., *et al.*, 1545
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650

CELL DEATH
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664

CELL DEATH, PROGRAMMED (see Apoptosis)

CELL DEGRANULATION
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

CELL DIFFERENTIATION
In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971

CELL DIVISION
Cell proliferation and expression of EGF, TGF-α, and EGF receptor in the developing primary palate. Iamaroon, A., *et al.*, 1534
In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971

CELL HYPOXIA
Induced hypoxia in rat pulp and periapex demonstrated by ^{3}H-misonidazole retention. Baumgardner, K.R., *et al.*, 1753

CELL MEMBRANE
Effects of Actinomyces amphiphile on the fluidity of endothelial cells: a spin label study. Hamada, Y., 1002
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

CELL MOVEMENT
Exposure of periodontal ligament cells to methyl mercaptan reduces intracellular pH and inhibits cell migration. Lancero, H., *et al.*, 1994

CEMENTS (see Dental Cements)

CERAMICS
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743
Dental materials developments in the UK: a personal view. McLean, J.W., 1816
Effect of cubic leucite stabilization on the flexural strength of feldspathic dental porcelain. Denry, I.L., *et al.*, 1928
Effects of flaw size and auto-glaze treatment on porcelain strength. Griggs, J.A., *et al.*, 1414
Microcracks in dental porcelain and their behavior during multiple firing. Mackert, J.R., Jr. and Williams, A.L., 1484

CERMET CEMENTS
Early and long-term wear of conventional and resin-modified glass ionomers. de Gee, A.J., *et al.*, 1613

CHEMOKINES
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827

CHEMOTAXIS
Comparative study of the chemotactic responses of periodontal ligament cells and gingival fibroblasts to polypeptide growth factors. Nishimura, F. and Terranova, V.P., 986
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664
Periodontal ligament cells are chemotactic to fibroblast collagenase. Terranova, V.P. and Nishimura, F., 993

CHEWING (see Mastication)

CHEWING GUM
Long-term use of nicotine chewing gum and mercury exposure from dental amalgam fillings. Sällsten, G., *et al.*, 594

CHILD
Cariogenicity depends more on diet than the prevailing mutans streptococcal species. van Palenstein Helderman, W.H., *et al.*, 535
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*
Enamel defects in the deciduous dentition as a potential predictor of defects in the permanent dentition of 8- and 9-year-old children in fluoridated Cheshire, England. Milsom, K.M., *et al.*, 1015
Influence of dft index on sealant success: a 48-month survival analysis, The. Bravo, M., *et al.*, 768
Prevalence of dental sealants in the US population: findings from NHANES III, 1988-91, The. Selwitz, R.H., *et al.*, 652*
Total fluoride intake in children aged 3 to 4 years—a longitudinal study. Guha-Chowdhury, N., *et al.*, 1451

CHINA
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

CHLORHEXIDINE
Meta-analysis of clinical studies on the caries-inhibiting effect of chlorhexidine treatment, A. van Rijkom, H.M., *et al.*, 790

CHLORIDES
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859

CHOLINERGIC AGONISTS, MUSCARINIC
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575

CITRATES
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418

COLLAGEN
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Comparison of the ability of intra-oral and extra-oral fibroblasts to stimulate extracellular matrix reorganization in a model of wound contraction, A. Stephens, P., *et al.*, 1358
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650
Resin permeation into acid-conditioned, moist, and dry dentin: a paradigm using water-free adhesive primers. Tay, F.R., *et al.*, 1034

COLLAGENASES
Periodontal ligament cells are chemotactic to fibroblast collagenase. Terranova, V.P. and Nishimura, F., 993

COLOR
Prediction of secondary caries around tooth-colored restorations: a clinical and microbiological study. Kidd, E.A.M. and Beighton, D., 1942

COLORIMETRY
Analysis of edge-losses in reflectance measurements of pigmented maxillofacial elastomer. Johnston, W.M., *et al.*, 752

COMMUNICABLE DISEASES
Dentists' role in halting antimicrobial resistance. Slots, J. and Pallasch, T.J., 1338, 1811 (*Erratum*)
Guest editorial: Antimicrobials in dentistry: with knowledge comes responsibility. Loesche, W.J., 1432

COMMUNICATIONS MEDIA
Guest editorial: Responsible public communication: on how not to become a clown in the media circus. Barnett, M.L., 1528

COMPLEMENT INACTIVATORS
Protection of gingival epithelium against complement-mediated damage by strong expression of the membrane attack complex inhibitor protectin (CD59). Rautemaa, R. and Meri, S., 568

COMPLEMENT MEMBRANE ATTACK COMPLEX
Protection of gingival epithelium against complement-mediated damage by strong expression of the membrane attack complex inhibitor protectin (CD59). Rautemaa, R. and Meri, S., 568

COMPOSITES
Dental materials developments in the UK: a personal view. McLean, J.W., 1816
Filler leachability of composites stored in distilled water or artificial saliva. Söderholm, K.-J.M., *et al.*, 1692
Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477
Influence of comonomer composition on dimethacrylate resin properties for dental composites, The. Anseth, K.S., *et al.*, 1607
Assessment of the efficacy of amorphous calcium phosphate/methacrylate composites in remineralizing caries-like lesions artificially produced in bovine enamel. Skrtic, D., *et al.*, 1679
Shear strength of composite bonded to Er:YAG laser-prepared dentin. Visuri, S.R., *et al.*, 599

CONDYLE, MANDIBULAR (see Mandibular Condyle)

CONFLICT OF INTEREST
Guest editorial: Responsible public communication: on how not to become a clown in the media circus. Barnett, M.L., 1528

CONGENITAL DEFECTS (see Abnormalities; Tooth Abnormalities)

CONTRACTION
Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477

COPPER
Microstructure and segregation behavior of palladium in silver-copper-palladium alloys. Chen, K.I., *et al.*, 1497

CORONARY DISEASE
Poor oral health and coronary heart disease. Joshipura, K.J., *et al.*, 1631

COTININE
Serum cotinine levels, smoking, and periodontal attachment loss. González, Y.M., *et al.*, 796

CRACKS (see Fractures)

CROWNS
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*

CULTURE MEDIA
Utilization of sialic acid by viridans streptococci. Byers, H.L., *et al.*, 1564

CURING
Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477

CUSPID
Palatal displacement of canine is genetic and related to congenital absence of teeth. Pirinen, S., *et al.*, 1742

CYSTIC FIBROSIS
Abnormal enamel development in a cystic fibrosis transgenic mouse model. Wright, J.T., *et al.*, 966

CYTOKINES
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562

DAIRY PRODUCTS
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779

DECALCIFICATION TECHNIQUE
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851

DEFECTS, GENETIC (see Hereditary Diseases)

DEGRANULATION (see Cell Degranulation)

DEMINERALIZATION (see Tooth Demineralization)

DEMOGRAPHY (see Ethnic Groups)

DENTAL ALLOYS
Microstructure and segregation behavior of palladium in silver-copper-palladium alloys. Chen, K.I., *et al.*, 1497

DENTAL AMALGAM
Long-term use of nicotine chewing gum and mercury exposure from dental amalgam fillings. Sällsten, G., *et al.*, 594

DENTAL BONDING
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Dentin bonding: SEM comparison of the resin-dentin interface in primary and permanent teeth. Nör, J.E., *et al.*, 1396
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418
Maximum likelihood estimates for the lifetime of bonded dental prostheses. de Rijk, W.G., *et al.*, 1700
New surface-active comonomer for adhesive bonding. Bowen, R.L., *et al.*, 606
Quantitative analysis of the dentin adhesive interface by auger spectroscopy. Eick, J.D., *et al.*, 1027
Regional strengths of bonding agents to cervical sclerotic root dentin. Yoshiyama, M., *et al.*, 1404
Resin permeation into acid-conditioned, moist, and dry dentin: a paradigm using water-free adhesive primers. Tay, F.R., *et al.*, 1034
Shear strength of composite bonded to Er:YAG laser-prepared dentin. Visuri, S.R., *et al.*, 599
Trial production of titanium orthodontic brackets fabricated by metal injection molding (MIM) with sintering. Deguchi, T., *et al.*, 1491

DENTAL CARIES
Accumulation of fermentable sugars and metabolic acids in food particles that become entrapped on the dentition. Kashket, S., *et al.*, 1885
Cariogenicity depends more on diet than the prevailing mutans streptococcal species. van Palenstein Helderman, W.H., *et al.*, 535
Cariogenicity of *Streptococcus mutans* strains with defects in fructan metabolism assessed in a program-fed specific-pathogen-free rat model. Burne, R.A., *et al.*, 1572
Chemical composition of tooth enamel in recessive dystrophic epidermolysis bullosa: significance with respect to dental caries, The. Kirkham, J., *et al.*, 1672
Coronal and root caries in the dentition of adults in the United States, 1988-1991. Winn, D.M., *et al.*, 642*
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*

Effect of a fluoridated toothpaste on dentinal lesions in plaque-filled grooves: an intra-oral crossover study, The. Lagerweij, M.D., *et al.*, 1687
Emergence of multiple xylitol-resistant (fructose PTS$^-$) mutants from human isolates of mutans streptococci during growth on dietary sugars in the presence of xylitol. Trahan, L., *et al.*, 1892
Estimation of caries prevalence in small areas, The. Leroux, B.G., *et al.*, 1947
Evaluation of sodium fluorescein for quantitative diagnosis of root caries. van der Veen, M.H., *et al.*, 588
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008
Immunohistochemical localization of HLA-DR-positive cells in unerupted and erupted normal and carious human teeth. Yoshiba, N., *et al.*, 1585
Impedance spectroscopy of teeth with and without approximal caries lesions—an *in vitro* study. Huysmans, M.-C.D.N.J.M., *et al.*, 1871
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779
Influence of dft index on sealant success: a 48-month survival analysis, The. Bravo, M., *et al.*, 768
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901
Prediction of secondary caries around tooth-colored restorations: a clinical and microbiological study. Kidd, E.A.M. and Beighton, D., 1942
Quantitative assessment of the efficacy of amorphous calcium phosphate/methacrylate composites in remineralizing caries-like lesions artificially produced in bovine enamel. Skrtic, D., *et al.*, 1679
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*
Taste preference for sweetness in urban and rural populations in Iraq. Jamel, H.A., *et al.*, 1879
Threshold effects of Nd and Ho:YAG laser-induced surface modification on demineralization of dentin surfaces. Kinney, J.H., *et al.*, 1388
Vaccine against dental caries—a personal view. Bowen, W.H., 1530

DENTAL CAVITY PREPARATION

In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971
Shear strength of composite bonded to Er:YAG laser-prepared dentin. Visuri, S.R., *et al.*, 599

DENTAL CEMENTS

Dental materials developments in the UK: a personal view. McLean, J.W., 1816
Hard decade's work, A.: steps in the invention of the glass-ionomer cement. Wilson, A.D., 1723

DENTAL CROWNS (see Crowns)

DENTAL ENAMEL

Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747
Abnormal enamel development in a cystic fibrosis transgenic mouse model. Wright, J.T., *et al.*, 966
Assessment of the efficacy of amorphous calcium phosphate/methacrylate composites in remineralizing caries-like lesions artificially produced in bovine enamel. Skrtic, D., *et al.*, 1679
Chemical composition of tooth enamel in recessive dystrophic epidermolysis bullosa: significance with respect to dental caries, The. Kirkham, J., *et al.*, 1672
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735
Cloning, DNA sequence, and alternative splicing of opossum amelogenin mRNAs. Hu, C.-C., *et al.*, 1728
Enamel defects in the deciduous dentition as a potential predictor of defects in the permanent dentition of 8- and 9-year-old children in fluoridated Cheshire, England. Milsom, K.M., *et al.*, 1015
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418
Protein characterization of fluorosed human enamel. Wright, J.T., *et al.*, 1936

DENTAL HEALTH SURVEYS

Coronal and root caries in the dentition of adults in the United States, 1988-1991. Winn, D.M., *et al.*, 642*
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*
Denture use and the technical quality of dental prostheses among persons 18-74 years of age: United States, 1988-1991. Redford, M., *et al.*, 714*
Estimation of caries prevalence in small areas, The. Leroux, B.G., *et al.*, 1947
Foreword: oral health in the United States, 1988-1991: the first three years of the third National Health and Nutrition Examination Survey. Kleinman, D.V. and Drury, T.F., 617*
Overview of the oral health component of the 1988-1991 National Health and Nutrition Examination Survey (NHANES III-Phase 1), An. Drury, T.F., *et al.*, 620*
Periodontal status in the United States, 1988-91: prevalence, extent, and demographic variation. Brown, L.J., *et al.*, 672*
Prevalence and distribution of selected occlusal characteristics in the US population, 1988-1991. Brunelle, J.A., *et al.*, 706*
Prevalence of dental sealants in the US population: findings from NHANES III, 1988-91, The. Selwitz, R.H., *et al.*, 652*
Prevalence of incisor trauma in persons 6 to 50 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 696*
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*
Tooth retention and tooth loss in the permanent dentition of adults: United States, 1988-1991. Marcus, S.E., *et al.*, 684*

DENTAL IMPRESSION TECHNIQUE

Form difference computations in restorative dentistry utilizing the macroelement method. McAlarney, M.E., *et al.*, 1464

DENTAL LEAKAGE

Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477

DENTAL MATERIALS

Dental materials developments in the UK: a personal view. McLean, J.W., 1816
Form difference computations in restorative dentistry utilizing the macroelement method. McAlarney, M.E., *et al.*, 1464

DENTAL MODELS (see Models, Dental)

DENTAL OCCLUSION

Prevalence and distribution of selected occlusal characteristics in the US population, 1988-1991. Brunelle, J.A., *et al.*, 706*

DENTAL PLAQUE

Cariogenicity of *Streptococcus mutans* strains with defects in fructan metabolism assessed in a program-fed specific-pathogen-free rat model. Burne, R.A., *et al.*, 1572
Co-adhesion of oral microbial pairs under flow in the presence of saliva and lactose. Bos, R., *et al.*, 809
Effect of a fluoridated toothpaste on dentinal lesions in plaque-filled grooves: an intra-oral crossover study, The. Lagerweij, M.D., *et al.*, 1687
Experimental gingivitis studies: the microbiological perspective, The. Theilade, E., 1434
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008

Hydrolysis of triclosan monophosphate by dental plaque and selected species of oral micro-organisms. Greenman, J. and Nelson, D.G.A., 1578
Inhibiting effect of aqueous *Azadirachta indica* (Neem) extract upon bacterial properties influencing *in vitro* plaque formation. The. Wolinsky, L.E., *et al.*, 816
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901
Prediction of secondary caries around tooth-colored restorations: a clinical and microbiological study. Kidd, E.A.M. and Beighton, D., 1942

DENTAL PORCELAIN
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743
Effect of cubic leucite stabilization on the flexural strength of feldspathic dental porcelain. Denry, I.L., *et al.*, 1928
Effects of flaw size and auto-glaze treatment on porcelain strength. Griggs, J.A., *et al.*, 1414
Microcracks in dental porcelain and their behavior during multiple firing. Mackert, J.R., Jr. and Williams, A.L., 1484

DENTAL PULP
Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747
Angiogenesis in human dental pulp following orthodontic tooth movement. Derringer, K.A., *et al.*, 1761
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637
Immunohistochemical localization of HLA-DR-positive cells in unerupted and erupted normal and carious human teeth. Yoshiba, N., *et al.*, 1585
In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971
Induced hypoxia in rat pulp and periapex demonstrated by ^{3}H-misonidazole retention. Baumgardner, K.R., *et al.*, 1753
Inflammatory lesions of the tooth pulp induce changes in brainstem neurons of the rat trigeminal subnucleus oralis. Torneck, C.D., *et al.*, 553
Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

DENTAL PULP CAPPING
Immunolocalization of fibronectin during reparative dentinogenesis in human teeth after pulp capping with calcium hydroxide. Yoshiba, K., *et al.*, 1590

DENTAL RESEARCH (see Research)

DENTAL RESTORATION, PERMANENT
Filler leachability of composites stored in distilled water or artificial saliva. Söderholm, K.-J.M., *et al.*, 1692
Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477
Form difference computations in restorative dentistry utilizing the macroelement method. McAlarney, M.E., *et al.*, 1464
Prediction of secondary caries around tooth-colored restorations: a clinical and microbiological study. Kidd, E.A.M. and Beighton, D., 1942
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*

DENTAL SEALANTS (see Pit and Fissure Sealants)

DENTAL STRESS ANALYSIS
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743
Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477

DENTIN
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Dentin bonding: SEM comparison of the resin-dentin interface in primary and permanent teeth. Nör, J.E., *et al.*, 1396
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851
Electrophoretic gels of dentin matrix proteins as diffusion media for *in vitro* mineralization. Wada, Y., *et al.*, 1381
Evaluation of sodium fluorescein for quantitative diagnosis of root caries. van der Veen, M.H., *et al.*, 588
Immunoreactivity of tenascin-C in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L., *et al.*, 581
In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418
Prediction of secondary caries around tooth-colored restorations: a clinical and microbiological study. Kidd, E.A.M. and Beighton, D., 1942
Regional strengths of bonding agents to cervical sclerotic root dentin. Yoshiyama, M., *et al.*, 1404
Shear strength of composite bonded to Er:YAG laser-prepared dentin. Visuri, S.R., *et al.*, 599
Threshold effects of Nd and Ho:YAG laser-induced surface modification on demineralization of dentin surfaces. Kinney, J.H., *et al.*, 1388
Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

DENTIN-BONDING AGENTS
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859
Dental materials developments in the UK: a personal view. McLean, J.W., 1816
Dentin bonding: SEM comparison of the resin-dentin interface in primary and permanent teeth. Nör, J.E., *et al.*, 1396
Design and development of isocyanatoacrylates as dental adhesives. Chappelow, C.C., *et al.*, 761
Quantitative analysis of the dentin adhesive interface by auger spectroscopy. Eick, J.D., *et al.*, 1027
Regional strengths of bonding agents to cervical sclerotic root dentin. Yoshiyama, M., *et al.*, 1404
Resin permeation into acid-conditioned, moist, and dry dentin: a paradigm using water-free adhesive primers. Tay, F.R., *et al.*, 1034

DENTIN SOLUBILITY
Constant composition dissolution kinetics studies of human dentin. Paschalis, E.P., *et al.*, 1019

DENTINOGENESIS
Immunolocalization of fibronectin during reparative dentinogenesis in human teeth after pulp capping with calcium hydroxide. Yoshiba, K., *et al.*, 1590
In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971

DENTINOGENESIS IMPERFECTA
Immunoreactivity of tenascin-C in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L., *et al.*, 581

DENTISTRY
Guest editorial: three new rules of life: some additional modest advice for those embarking on a career in dental research. Barnett, M.L., 960

DENTITION, PRIMARY
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*
Dentin bonding: SEM comparison of the resin-dentin interface in primary and permanent teeth. Nör, J.E., *et al.*, 1396
Enamel defects in the deciduous dentition as

a potential predictor of defects in the permanent dentition of 8- and 9-year-old children in fluoridated Cheshire, England. Milsom, K.M., *et al.*, 1015

DENTURE, PARTIAL
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*

DENTURE, PARTIAL, FIXED, RESIN-BONDED
Maximum likelihood estimates for the lifetime of bonded dental prostheses. de Rijk, W.G., *et al.*, 1700

DENTURE, PARTIAL, REMOVABLE
Denture use and the technical quality of dental prostheses among persons 18-74 years of age: United States, 1988-1991. Redford, M., *et al.*, 714*

DIABETES MELLITUS
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664

DIAGNOSIS, ORAL
Impedance spectroscopy of teeth with and without approximal caries lesions—an *in vitro* study. Huysmans, M.-C.D.N.J.M., *et al.*, 1871
Relationships between clinician variability and radiographic guidelines. Flack, V.F., *et al.*, 775

DIET
Accumulation of fermentable sugars and metabolic acids in food particles that become entrapped on the dentition. Kashket, S., *et al.*, 1885
Cariogenicity depends more on diet than the prevailing mutans streptococcal species. van Palenstein Helderman, W.H., *et al.*, 535
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779
Poor oral health and coronary heart disease. Joshipura, K.J., *et al.*, 1631
Taste preference for sweetness in urban and rural populations in Iraq. Jamel, H.A., *et al.*, 1879
Total fluoride intake in children aged 3 to 4 years—a longitudinal study. Guha-Chowdhury, N., *et al.*, 1451

DIPHOSPHONATES
Inhibitory effect of the topical administration of a bisphosphonate (Risedronate) on root resorption incident to orthodontic tooth movement in rats. Igarashi, K., *et al.*, 1644

DISSOLUTION (see Solubility)

DMF INDEX
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*
Influence of dft index on sealant success: a 48-month survival analysis, The. Bravo, M., *et al.*, 768
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*

DNA, COMPLEMENTARY
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735

DNA SEQUENCE (see Base Sequence)

DOPAMINE D2 RECEPTORS
Striatal D2 receptor binding in sleep bruxism: a controlled study with iodine-123-iodobenzamide and single-photon-emission computed tomography. Lobbezoo, F., *et al.*, 1804

DRUG RESISTANCE, MICROBIAL
Dentists' role in halting antimicrobial resistance. Slots, J. and Pallasch, T.J., 1338, 1811 (*Erratum*)
Guest editorial: Antimicrobials in dentistry: with knowledge comes responsibility. Loesche, W.J., 1432
Ins and outs of antimicrobial resistance: era of the drug pumps. Jenkinson, H.F., 736

DUE PROCESS (see Jurisprudence)

DYES
Evaluation of sodium fluorescein for quantitative diagnosis of root caries. van der Veen, M.H., *et al.*, 588

DYSAUTONOMIA, FAMILIAL
Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747

EASTMAN DENTAL CENTER
Michael Buonocore and the Eastman Dental Center: a historic perspective on sealants. Handelman, S.L. and Shey, Z., 529

EDUCATION, DENTAL, CONTINUING
Guest editorial: Trashing the dental literature—misleading the general practitioners: a point of view. Stanley, H.R., 1624

ELASTOMERS (see Rubber)

ELDERLY (see Aged)

ELECTRIC IMPEDANCE
Impedance spectroscopy of teeth with and without approximal caries lesions—an *in vitro* study. Huysmans, M.-C.D.N.J.M., *et al.*, 1871

ELECTRIC STIMULATION
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637
Electrical stimulation of masseter muscles maintains condylar cartilage in long-term organ culture. Pirttiniemi, P. and Kantomaa, T., 1365
Jaw movement responses to electrical stimulation of different parts of the human temporalis muscle. Zwignenburg, A.J., 1798

ELECTROMYOGRAPHY
Jaw movement responses to electrical stimulation of different parts of the human temporalis muscle. Zwignenburg, A.J., 1798
Tongue, jaw, and lip muscle activity and jaw movement during experimental chewing efforts in man. Takada, K., *et al.*, 1598

ELECTROPHORESIS, POLYACRYLAMIDE GEL
Abnormal enamel development in a cystic fibrosis transgenic mouse model. Wright, J.T., *et al.*, 966
Electrophoretic gels of dentin matrix proteins as diffusion media for *in vitro* mineralization. Wada, Y., *et al.*, 1381
Protein characterization of fluorosed human enamel. Wright, J.T., *et al.*, 1936

EMBRYO DEVELOPMENT (see Fetal Development)

ENAMEL (see Dental Enamel)

ENDOTHELIUM, VASCULAR
Effects of Actinomyces amphiphile on the fluidity of endothelial cells: a spin label study. Hamada, Y., 1002

ENGLAND
Enamel defects in the deciduous dentition as a potential predictor of defects in the permanent dentition of 8- and 9-year-old children in fluoridated Cheshire, England. Milsom, K.M., *et al.*, 1015

EPIDEMIOLOGY (see Dental Health Surveys)

EPIDERMAL GROWTH FACTOR-UROGASTRONE
Cell proliferation and expression of EGF, TGF-α, and EGF receptor in the developing primary palate. Iamaroon, A., *et al.*, 1534
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate genes. Arte, S., *et al.*, 1346
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562

EPIDERMOLYSIS BULLOSA DYSTROPHICA
Chemical composition of tooth enamel in recessive dystrophic epidermolysis bullosa: significance with respect to dental caries, The. Kirkham, J., *et al.*, 1672

EPITHELIUM
Expression of laminin 5, fibronectin, and epithelium-associated integrins in recurrent aphthous ulcer. Richards, D.W., *et al.*, 1512

EQUIPMENT FAILURE (see Failure of Dental Materials)

ETCHING, DENTAL (see Acid Etching, Dental)

ETHANOL (see Alcohol, Ethyl)

ETHICS, DENTAL
Developing ethical standards for responsible research: why? form? functions? process? outcomes? Frankel, M.S., 832@
Guest editorial: Responsible public communication: on how not to become a clown in the media circus. Barnett, M.L., 1528
Guest editorial: Trashing the dental literature—misleading the general practitioners: a point of view. Stanley, H.R., 1624
Moral foundations of scientific ethics and responsibility, The. Camenisch, P.F., 825@
On being a scientist in a rapidly changing world. Mandel, I.D., 841@
Proceedings of a symposium, toward responsible research conduct: the role of scientific societies. Bebeau, M.J. and Holt, S.C., 823@
Process and procedures for dealing with misconduct: a necessity or a nightmare? Bersoff, D.N., 836@
Role of the AADR in promoting research integrity: perspectives and consensus statements, The. Bebeau, M.J. and Holt, S.C., 856@
Survey of ethical issues in dental research. Bebeau, M.J. and Davis, E.L., 845@

ETHICS IN PUBLISHING (see Scientific Misconduct)

ETHNIC GROUPS
Coronal and root caries in the dentition of adults in the United States, 1988-1991. Winn, D.M., *et al.*, 642*
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*
Denture use and the technical quality of dental prostheses among persons 18-74 years of age: United States, 1988-1991. Redford, M., *et al.*, 714*
Overview of the oral health component of the 1988-1991 National Health and Nutrition Examination Survey (NHANES III-Phase 1), An. Drury, T.F., *et al.*, 620*
Periodontal status in the United States, 1988-91: prevalence, extent, and demographic variation. Brown, L.J., *et al.*, 672*
Prevalence and distribution of selected occlusal characteristics in the US population, 1988-1991. Brunelle, J.A., *et al.*, 706*
Prevalence of dental sealants in the US population: findings from NHANES III, 1988-91, The. Selwitz, R.H., *et al.*, 652*
Prevalence of incisor trauma in persons 6 to 50 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 696*
Tooth retention and tooth loss in the permanent dentition of adults: United States, 1988-1991. Marcus, S.E., *et al.*, 684*
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

EXTRACELLULAR MATRIX
Comparison of the ability of intra-oral and extra-oral fibroblasts to stimulate extracellular matrix reorganization in a model of wound contraction, A. Stephens, P., *et al.*, 1358
Expression of laminin 5, fibronectin, and epithelium-associated integrins in recurrent aphthous ulcer. Richards, D.W., *et al.*, 1512
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553

FACE
Jaw muscle orientation and moment arms of long-face and normal adults. van Spronsen, P.H., *et al.*, 1372

FAILURE OF DENTAL MATERIALS
Maximum likelihood estimates for the lifetime of bonded dental prostheses. de Rijk, W.G., *et al.*, 1700

FAS ANTIGENS (see Antigens, CD95)

FATIGUE (see Stress, Mechanical)

FERROUS COMPOUNDS
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859

FETAL DEVELOPMENT
Cell proliferation and expression of EGF, TGF-α, and EGF receptor in the developing primary palate. Iamaroon, A., *et al.*, 1534
Human mandibular canal arises from three separate canals innervating different tooth groups, The. Chávez-Lomelí, M.E., *et al.*, 1540
Morphometric investigation of myotube formation in rabbit embryo medial pterygoid muscle, A. Benoît, and Baudoin, C., 1835

FIBROBLAST GROWTH FACTOR
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate genes. Arte, S., *et al.*, 1346

FIBROBLASTS
CD44-hyaluronate interaction participates in the adherence of T-lymphocytes to gingival fibroblasts. Murakami, S., *et al.*, 1545
Comparative study of the chemotactic responses of periodontal ligament cells and gingival fibroblasts to polypeptide growth factors. Nishimura, F. and Terranova, V.P., 986
Comparison of the ability of intra-oral and extra-oral fibroblasts to stimulate extracellular matrix reorganization in a model of wound contraction, A. Stephens, P., *et al.*, 1358
Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767
Periodontal ligament cells are chemotactic to fibroblast collagenase. Terranova, V.P. and Nishimura, F., 993

FIBRONECTINS
Expression of laminin 5, fibronectin, and epithelium-associated integrins in recurrent aphthous ulcer. Richards, D.W., *et al.*, 1512
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664
Immunolocalization of fibronectin during reparative dentinogenesis in human teeth after pulp capping with calcium hydroxide. Yoshiba, K., *et al.*, 1590

FILLING, DENTAL, PERMANENT (see Dental Restoration, Permanent)

FISSURE SEALANTS (see Pit and Fissure Sealants)

FLUORESCEINS
Evaluation of sodium fluorescein for quantitative diagnosis of root caries. van der Veen, M.H., *et al.*, 588

FLUORIDATION
Enamel defects in the deciduous dentition as a potential predictor of defects in the permanent dentition of 8- and 9-year-old children in fluoridated Cheshire, England. Milsom, K.M., *et al.*, 1015

FLUORIDES
Effect of a fluoridated toothpaste on dentinal lesions in plaque-filled

grooves: an intra-oral crossover study, The. Lagerweij, M.D., *et al.*, 1687
Protein characterization of fluorosed human enamel. Wright, J.T., *et al.*, 1936
Total fluoride intake in children aged 3 to 4 years—a longitudinal study. Guha-Chowdhury, N., *et al.*, 1451

FLUOROSIS (see Mottled Enamel)

FOCAL INFECTION, DENTAL
Focal infection. Newman, H.N., 1912

FOOD (see Diet)

FORM
Form difference computations in restorative dentistry utilizing the macroelement method. McAlarney, M.E., *et al.*, 1464

FRACTURES
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743
Effect of cubic leucite stabilization on the flexural strength of feldspathic dental porcelain. Denry, I.L., *et al.*, 1928
Effects of flaw size and auto-glaze treatment on porcelain strength. Griggs, J.A., *et al.*, 1414
Microcracks in dental porcelain and their behavior during multiple firing. Mackert, J.R., Jr. and Williams, A.L., 1484

FRUCTANS
Cariogenicity of *Streptococcus mutans* strains with defects in fructan metabolism assessed in a program-fed specific-pathogen-free rat model. Burne, R.A., *et al.*, 1572

FRUCTOSE
Accumulation of fermentable sugars and metabolic acids in food particles that become entrapped on the dentition. Kashket, S., *et al.*, 1885
Emergence of multiple xylitol-resistant (fructose PTS^-) mutants from human isolates of mutans streptococci during growth on dietary sugars in the presence of xylitol. Trahan, L., *et al.*, 1892

FUSOBACTERIUM
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

GELATINASES
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553

GENDER (see Sex)

GENE EXPRESSION
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827
Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767

GENE LIBRARY
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735

GENE MUTATION (see Mutation)

GENES, BACTERIAL
Cariogenicity of *Streptococcus mutans* strains with defects in fructan metabolism assessed in a program-fed specific-pathogen-free rat model. Burne, R.A., *et al.*, 1572

GERMINATION
Reactivity of Candida albicans germ tubes with salivary secretory IgA. Pontón, J., *et al.*, 1979

GIBBONS, RONALD J., Jr.
In memoriam, 1720

GINGIVA
CD44-hyaluronate interaction participates in the adherence of T-lymphocytes to gingival fibroblasts. Murakami, S., *et al.*, 1545
Comparative study of the chemotactic responses of periodontal ligament cells and gingival fibroblasts to polypeptide growth factors. Nishimura, F. and Terranova, V.P., 986
Highly virulent strains of herpes simplex virus fail to kill mice following infection *via* gingival route. Monma, Y., *et al.*, 974
Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553
Identification of the Fas antigen in human gingiva. Yoshioka, C., *et al.*, 1353
Protection of gingival epithelium against complement-mediated damage by strong expression of the membrane attack complex inhibitor protectin (CD59). Rautemaa, R. and Meri, S., 568

GINGIVAL CREVICULAR FLUID
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562
Serendipity or luck: stumbling on gingival crevicular fluid. Krasse, B., 1627

GINGIVAL DISEASES
Periodontal status in the United States, 1988-91: prevalence, extent, and demographic variation. Brown, L.J., *et al.*, 672*

GINGIVITIS
Effects of Actinomyces amphiphile on the fluidity of endothelial cells: a spin label study. Hamada, Y., 1002
Experimental gingivitis studies: the microbiological perspective. Theilade, E., 1434

GLASS-IONOMER CEMENTS
Early and long-term wear of conventional and resin-modified glass ionomers. de Gee, A.J., *et al.*, 1613
Hard decade's work, A.: steps in the invention of the glass-ionomer cement. Wilson, A.D., 1723
IR and NMR analyses of hardening and maturation of glass-ionomer cement. Matsuya, S., *et al.*, 1920

GLUCANS
Inhibiting effect of aqueous *Azadirachta indica* (Neem) extract upon bacterial properties influencing *in vitro* plaque formation. The. Wolinsky, L.E., *et al.*, 816

GLUCOSE
Accumulation of fermentable sugars and metabolic acids in food particles that become entrapped on the dentition. Kashket, S., *et al.*, 1885
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664

GLUTARALDEHYDE
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851

GORLIN SYNDROME
Syndromes, syndromes, and more syndromes. Gorlin, R.J., 732

GRANULATION TISSUE
Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767

GROWTH SUBSTANCES
Comparative study of the chemotactic responses of periodontal ligament cells and gingival fibroblasts to polypeptide growth factors. Nishimura, F. and Terranova, V.P., 986
Expression of keratinocyte growth factor in periapical lesions. Gao, Z., *et al.*, 1658
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate genes. Arte, S., *et al.*, 1346

GUIDELINES (see Practice Guidelines)

HARDNESS
Trial production of titanium orthodontic

brackets fabricated by metal injection molding (MIM) with sintering. Deguchi, T., *et al.*, 1491

HARDNESS TESTS
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743

HEAT-SHOCK PROTEINS
Reactivity of *Candida albicans* germ tubes with salivary secretory IgA. Pontón, J., *et al.*, 1979

HEMA (see Hydroxyethyl Methacrylate)

HEREDITARY DISEASES
Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate genes. Arte, S., *et al.*, 1346
Palatal displacement of canine is genetic and related to congenital absence of teeth. Pirinen, S., *et al.*, 1742

HERPES SIMPLEX
Highly virulent strains of herpes simplex virus fail to kill mice following infection *via* gingival route. Monma, Y., *et al.*, 974

HERPESVIRUS 1, HUMAN
Highly virulent strains of herpes simplex virus fail to kill mice following infection *via* gingival route. Monma, Y., *et al.*, 974

HISTOCOMPATIBILITY ANTIGENS CLASS II
Immunohistochemical localization of HLA-DR-positive cells in unerupted and erupted normal and carious human teeth. Yoshiba, N., *et al.*, 1585

HISTORY OF DENTISTRY
Dental materials developments in the UK: a personal view. McLean, J.W., 1816
Early days of electron microscopy in dental research, The. Scott, D.B., 962
Experimental gingivitis studies: the microbiological perspective, The. Theilade, E., 1434
Hard decade's work, A.: steps in the invention of the glass-ionomer cement. Wilson, A.D., 1723
Interview with Coenraad F.A. Moorrees, An. Horowitz, S.L., 1342
Michael Buonocore and the Eastman Dental Center: a historic perspective on sealants. Handelman, S.L. and Shey, Z., 529
Serendipity or luck: stumbling on gingival crevicular fluid. Krasse, B., 1627
Syndromes, syndromes, and more syndromes. Gorlin, R.J., 732

HLA-DR ANTIGENS
Immunohistochemical localization of HLA-DR-positive cells in unerupted and erupted normal and carious human teeth. Yoshiba, N., *et al.*, 1585

HYALURON RECEPTORS (see Antigens, CD44)

HYDROGEN-ION CONCENTRATION
Exposure of periodontal ligament cells to methyl mercaptan reduces intracellular pH and inhibits cell migration. Lancero, H., *et al.*, 1994
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

HYDROLYSIS
Filler leachability of composites stored in distilled water or artificial saliva. Söderholm, K.-J.M., *et al.*, 1692
Hydrolysis of triclosan monophosphate by dental plaque and selected species of oral micro-organisms. Greenman, J. and Nelson, D.G.A., 1578

HYDROXYAPATITES
Constant composition dissolution kinetics studies of human dentin. Paschalis, E.P., *et al.*, 1019
Inhibiting effect of aqueous *Azadirachta indica* (Neem) extract upon bacterial properties influencing *in vitro* plaque formation. The. Wolinsky, L.E., *et al.*, 816
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418
Surface spectroscopy of apatitic materials: limitations and concerns. Wieliczka, D.M., *et al.*, 1865
Temporal and compositional characteristics of salivary protein adsorption to hydroxyapatite. Lamkin, M.S., 803

HYDROXYETHYL METHACRYLATE
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Effects of acetone, ethanol, HEMA, and air on the stiffness of human decalcified dentin matrix, The. Maciel, K.T., *et al.*, 1851
Quantitative analysis of the dentin adhesive interface by auger spectroscopy. Eick, J.D., *et al.*, 1027

HYDROXYETHYLTHIOMETHACRYLATE (HETMA)
Quantitative analysis of the dentin adhesive interface by auger spectroscopy. Eick, J.D., *et al.*, 1027

HYPODONTIA (see Anodontia)

HYPOXIA, CELLULAR (see Cell Hypoxia)

IADR/AADR
Abstracts, IADR/AADR, 17-440
Developing ethical standards for responsible research: why? form? functions? process? outcomes? Frankel, M.S., 832@
Divisional abstracts, 1056-1330
"If not us, then who?" Greenspan, J.S., 1336
Moral foundations of scientific ethics and responsibility, The. Camenisch, P.F., 825@
On being a scientist in a rapidly changing world. Mandel, I.D., 841@
Proceedings of a symposium, toward responsible research conduct: the role of scientific societies. Bebeau, M.J. and Holt, S.C., 823@
Process and procedures for dealing with misconduct: a necessity or a nightmare? Bersoff, D.N., 836@
Role of the AADR in promoting research integrity: perspectives and consensus statements, The. Bebeau, M.J. and Holt, S.C., 856@
Survey of ethical issues in dental research. Bebeau, M.J. and Davis, E.L., 845@

IGA, SECRETORY
Reactivity of *Candida albicans* germ tubes with salivary secretory IgA. Pontón, J., *et al.*, 1979
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789

IMMUNOHISTOCHEMISTRY
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553
Immunohistochemical localization of HLA-DR-positive cells in unerupted and erupted normal and carious human teeth. Yoshiba, N., *et al.*, 1585
Immunoreactivity of tenascin-C in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L., *et al.*, 581

IMMUNOTHERAPY, ACTIVE
Vaccine against dental caries—a personal view. Bowen, W.H., 1530

IMPEDANCE (see Electric Impedance)

***IN SITU* HYBRIDIZATION**
Expression of keratinocyte growth factor in periapical lesions. Gao, Z., *et al.*, 1658

INCISOR
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate

genes. Arte, S., *et al.*, 1346
Prevalence of incisor trauma in persons 6 to 50 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 696*

INDUSTRY
Changing face of dental research: blurring the boundaries between industry and academia, The. Boyan, B.D., 1426

INFECTION
Focal infection. Newman, H.N., 1912

INFECTIOUS DISEASES
(see Communicable Diseases)

INFLAMMATION
Expression of keratinocyte growth factor in periapical lesions. Gao, Z., *et al.*, 1658
Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767
Inflammatory lesions of the tooth pulp induce changes in brainstem neurons of the rat trigeminal subnucleus oralis. Torneck, C.D., *et al.*, 553
Protection of gingival epithelium against complement-mediated damage by strong expression of the membrane attack complex inhibitor protectin (CD59). Rautemaa, R. and Meri, S., 568

INTEGRIN ALPHA-V BETA-3 (see Receptors, Vitronectin)

INTEGRINS
CD44-hyaluronate interaction participates in the adherence of T-lymphocytes to gingival fibroblasts. Murakami, S., *et al.*, 1545
Expression of laminin 5, fibronectin, and epithelium-associated integrins in recurrent aphthous ulcer. Richards, D.W., *et al.*, 1512

INTERLEUKIN-1
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562

INTERLEUKIN-6
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562

IODINE-123-IODOBENZAMIDE
Striatal D2 receptor binding in sleep bruxism: a controlled study with iodine-123-iodobenzamide and single-photon-emission computed tomography. Lobbezoo, F., *et al.*, 1804

ION EXCHANGE
Filler leachability of composites stored in distilled water or artificial saliva. Söderholm, K.-J.M., *et al.*, 1692
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418

IRAQ
Taste preference for sweetness in urban and rural populations in Iraq. Jamel, H.A., *et al.*, 1879

ISOCYANATES
Design and development of isocyanatoacrylates as dental adhesives. Chappelow, C.C., *et al.*, 761

JAW
Jaw movement responses to electrical stimulation of different parts of the human temporalis muscle. Zwignenburg, A.J., 1798
Jaw muscle orientation and moment arms of long-face and normal adults. van Spronsen, P.H., *et al.*, 1372
Tongue, jaw, and lip muscle activity and jaw movement during experimental chewing efforts in man. Takada, K., *et al.*, 1598

JAW, EDENTULOUS, PARTIALLY
Incidence of and risk factors for tooth loss in a population of older Canadians. Locker, D., *et al.*, 783
Poor oral health and coronary heart disease. Joshipura, K.J., *et al.*, 1631

JAW RELATION RECORD
Jaw muscle orientation and moment arms of long-face and normal adults. van Spronsen, P.H., *et al.*, 1372
Prevalence and distribution of selected occlusal characteristics in the US population, 1988-1991. Brunelle, J.A., *et al.*, 706*

JOURNAL OF DENTAL RESEARCH
Editor's report, 1995. Herzberg, M., 524

JOURNALISM, DENTAL
Guest editorial: Trashing the dental literature—misleading the general practitioners: a point of view. Stanley, H.R., 1624

JURISPRUDENCE
Process and procedures for dealing with misconduct: a necessity or a nightmare? Bersoff, D.N., 836@

KERATINOCYTES
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827
Expression of keratinocyte growth factor in periapical lesions. Gao, Z., *et al.*, 1658
Expression of laminin 5, fibronectin, and epithelium-associated integrins in recurrent aphthous ulcer. Richards, D.W., *et al.*, 1512

LACTOBACILLUS
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901
Prediction of secondary caries around tooth-colored restorations: a clinical and microbiological study. Kidd, E.A.M. and Beighton, D., 1942

LACTOFERRIN
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789

LACTOSE
Co-adhesion of oral microbial pairs under flow in the presence of saliva and lactose. Bos, R., *et al.*, 809
Emergence of multiple xylitol-resistant (fructose PTS^-) mutants from human isolates of mutans streptococci during growth on dietary sugars in the presence of xylitol. Trahan, L., *et al.*, 1892

LAMININ
Expression of laminin 5, fibronectin, and epithelium-associated integrins in recurrent aphthous ulcer. Richards, D.W., *et al.*, 1512

LASERS
Shear strength of composite bonded to Er:YAG laser-prepared dentin. Visuri, S.R., *et al.*, 599
Threshold effects of Nd and Ho:YAG laser-induced surface modification on demineralization of dentin surfaces. Kinney, J.H., *et al.*, 1388

LEAKAGE (see Dental Leakage)

LEUCINE
Cloning, DNA sequence, and alternative splicing of opossum amelogenin mRNAs. Hu, C.-C., *et al.*, 1728

LEUCITE
Effect of cubic leucite stabilization on the flexural strength of feldspathic dental porcelain. Denry, I.L., *et al.*, 1928
Microcracks in dental porcelain and their behavior during multiple firing. Mackert, J.R., Jr. and Williams, A.L., 1484

LIGHT CURING (see CURING)

LIKELIHOOD FUNCTIONS
Maximum likelihood estimates for the

lifetime of bonded dental prostheses. de Rijk, W.G., *et al.*, 1700

LIP
Tongue, jaw, and lip muscle activity and jaw movement during experimental chewing efforts in man. Takada, K., *et al.*, 1598

LIPOCALIN
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553

LIPOPOLYSACCHARIDE
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

LYSOZYME (see Muramidase)

MAGNETIC RESONANCE IMAGING
Jaw muscle orientation and moment arms of long-face and normal adults. van Spronsen, P.H., *et al.*, 1372
Tongue volume in human female adults with mandibular prognathism. Yoo, E., *et al.*, 1957

MAGNETIC RESONANCE SPECTROSCOPY (see Nuclear Magnetic Resonance)

MALOCCLUSION
Prevalence and distribution of selected occlusal characteristics in the US population, 1988-1991. Brunelle, J.A., *et al.*, 706*

MANDIBLE
Human mandibular canal arises from three separate canals innervating different tooth groups, The. Chávez-Lomelí, M.E., *et al.*, 1540
Tongue volume in human female adults with mandibular prognathism. Yoo, E., *et al.*, 1957

MANDIBULAR CONDYLE
Anatomic and directional variation in the mechanical properties of the mandibular condyle in pigs. Teng, S. and Herring, S.W., 1842
Electrical stimulation of masseter muscles maintains condylar cartilage in long-term organ culture. Pirttiniemi, P. and Kantomaa, T., 1365

MANDIBULAR NERVE
Human mandibular canal arises from three separate canals innervating different tooth groups, The. Chávez-Lomelí, M.E., *et al.*, 1540

MASSETER MUSCLE
Electrical stimulation of masseter muscles maintains condylar cartilage in long-term organ culture. Pirttiniemi, P. and Kantomaa, T., 1365

MASTICATION
Tongue, jaw, and lip muscle activity and jaw movement during experimental chewing efforts in man. Takada, K., *et al.*, 1598

MASTICATORY MUSCLES
Electrical stimulation of masseter muscles maintains condylar cartilage in long-term organ culture. Pirttiniemi, P. and Kantomaa, T., 1365
Jaw movement responses to electrical stimulation of different parts of the human temporalis muscle. Zwignenburg, A.J., 1798
Jaw muscle orientation and moment arms of long-face and normal adults. van Spronsen, P.H., *et al.*, 1372
Morphometric investigation of myotube formation in rabbit embryo medial pterygoid muscle, A. Benoît, and Baudoin, C., 1835
Tongue, jaw, and lip muscle activity and jaw movement during experimental chewing efforts in man. Takada, K., *et al.*, 1598

MATRIX, EXTRACELLULAR (see Extracellular Matrix)

MATRIX PROTEINS (see Bone Matrix)

MAXILLOFACIAL PROSTHESIS
Analysis of edge-losses in reflectance measurements of pigmented maxillofacial elastomer. Johnston, W.M., *et al.*, 752

MAXIMUM LIKELIHOOD ESTIMATES (see Likelihood Functions)

MEDIA (see Communications Media)

MELAPHIS CHINENSIS
Inhibiting effect of aqueous *Azadirachta indica* (Neem) extract upon bacterial properties influencing *in vitro* plaque formation. The. Wolinsky, L.E., *et al.*, 816

MEMBRANE (see Cell Membrane)

MERCAPTO COMPOUNDS (see Sulfhydryl Compounds)

MERCURY
Long-term use of nicotine chewing gum and mercury exposure from dental amalgam fillings. Sällsten, G., *et al.*, 594

METAL CERAMIC ALLOYS
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743

METALLOPROTEINASES
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

METALLURGY
Trial production of titanium orthodontic brackets fabricated by metal injection molding (MIM) with sintering. Deguchi, T., *et al.*, 1491

METHACRYLATES
Assessment of the efficacy of amorphous calcium phosphate/methacrylate composites in remineralizing caries-like lesions artificially produced in bovine enamel. Skrtic, D., *et al.*, 1679
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Design and development of isocyanatoacrylates as dental adhesives. Chappelow, C.C., *et al.*, 761
Influence of comonomer composition on dimethacrylate resin properties for dental composites, The. Anseth, K.S., *et al.*, 1607

METHYLMETHACRYLATES
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859

MICE
Abnormal enamel development in a cystic fibrosis transgenic mouse model. Wright, J.T., *et al.*, 966
Electrical stimulation of masseter muscles maintains condylar cartilage in long-term organ culture. Pirttiniemi, P. and Kantomaa, T., 1365
Highly virulent strains of herpes simplex virus fail to kill mice following infection *via* gingival route. Monma, Y., *et al.*, 974
Microvascular luminal volume changes in aged mouse periodontal ligament. Sims, M.R., *et al.*, 1503

MICROFRACTURES (see Fractures)

MICROLEAKAGE (see Dental Leakage)

MICRORADIOGRAPHY
Evaluation of sodium fluorescein for quantitative diagnosis of root caries. van der Veen, M.H., *et al.*, 588

MICROSCOPY, ELECTRON
Angiogenesis in human dental pulp following orthodontic tooth movement. Derringer, K.A., *et al.*, 1761
Early days of electron microscopy in dental research, The. Scott, D.B., 962
Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp

as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

MICROSCOPY, ELECTRON, SCANNING
Abnormal enamel development in a cystic fibrosis transgenic mouse model. Wright, J.T., *et al.*, 966
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Dentin bonding: SEM comparison of the resin-dentin interface in primary and permanent teeth. Nör, J.E., *et al.*, 1396
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779
Quantitative analysis of the dentin adhesive interface by auger spectroscopy. Eick, J.D., *et al.*, 1027
Resin permeation into acid-conditioned, moist, and dry dentin: a paradigm using water-free adhesive primers. Tay, F.R., *et al.*, 1034

MICROSCOPY, ELECTRON, SCANNING TRANSMISSION
Abnormal enamel development in a cystic fibrosis transgenic mouse model. Wright, J.T., *et al.*, 966
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Microstructure and segregation behavior of palladium in silver-copper-palladium alloys. Chen, K.I., *et al.*, 1497

MICROSCOPY, LIGHT
Abnormal enamel development in a cystic fibrosis transgenic mouse model. Wright, J.T., *et al.*, 966
Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

MICROVASCULATURE (see Blood Supply)

MILK
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779

MINERALIZATION (see Calcification, Physiologic)

MISONIDAZOLE
Induced hypoxia in rat pulp and periapex demonstrated by ^{3}H-misonidazole retention. Baumgardner, K.R., *et al.*, 1753

MODELS, DENTAL
Form difference computations in restorative dentistry utilizing the macroelement method. McAlarney, M.E., *et al.*, 1464
In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971

MODELS, STATISTICAL
Maximum likelihood estimates for the lifetime of bonded dental prostheses. de Rijk, W.G., *et al.*, 1700
Use of the Weibull Hazard model to estimate age-specific probability of permanent tooth loss. Otani, K., *et al.*, 1458

MONOMERS
Influence of comonomer composition on dimethacrylate resin properties for dental composites, The. Anseth, K.S., *et al.*, 1607
New surface-active comonomer for adhesive bonding. Bowen, R.L., *et al.*, 606

MONTE CARLO METHOD
Use of the Weibull Hazard model to estimate age-specific probability of permanent tooth loss. Otani, K., *et al.*, 1458

MOOREES, COENRAAD F.A.
Interview with Coenraad F.A. Moorrees, An. Horowitz, S.L., 1342, 1811 (*Erratum*)

MORPHOGENESIS
Cell proliferation and expression of EGF, TGF-α, and EGF receptor in the developing primary palate. Iamaroon, A., *et al.*, 1534
Human mandibular canal arises from three separate canals innervating different tooth groups, The. Chávez-Lomelí, M.E., *et al.*, 1540
Morphometric investigation of myotube formation in rabbit embryo medial pterygoid muscle, A. Benoît, and Baudoin, C., 1835

MORPHOMETRICS
Form difference computations in restorative dentistry utilizing the macroelement method. McAlarney, M.E., *et al.*, 1464

MOTTLED ENAMEL
Enamel defects in the deciduous dentition as a potential predictor of defects in the permanent dentition of 8- and 9-year-old children in fluoridated Cheshire, England. Milsom, K.M., *et al.*, 1015
Estimation of caries prevalence in small areas, The. Leroux, B.G., *et al.*, 1947
Protein characterization of fluorosed human enamel. Wright, J.T., *et al.*, 1936
Total fluoride intake in children aged 3 to 4 years—a longitudinal study. Guha-Chowdhury, N., *et al.*, 1451

MOUTH
Comparison of the ability of intra-oral and extra-oral fibroblasts to stimulate extracellular matrix reorganization in a model of wound contraction, A. Stephens, P., *et al.*, 1358

MOUTH MUCOSA (see Oral Mucosa)

mRNA (see RNA, MESSENGER)

MUCINS
Differential expression of human high-molecular-weight salivary mucin (MG1) and low-molecular-weight salivary mucin (MG2). Nielsen, P.A., *et al.*, 1820
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575

MUCOSA (see Oral Mucosa)

MURAMIDASE
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789

MUSCARINIC AGONISTS
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575

MUTATION
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate genes. Arte, S., *et al.*, 1346

N-ACETYLNEURAMINIC ACIDS (see Sialic Acids)

NATIONAL HEALTH AND NUTRITION EXAMINATION SURVEY (see Dental Health Surveys)

NEOVASCULARIZATION, PHYSIOLOGIC
Angiogenesis in human dental pulp following orthodontic tooth movement. Derringer, K.A., *et al.*, 1761
Effect of demineralized bone matrix on the healing of intramembranous bone grafts in rabbit skull defects, The. Rabie, A.B.M., *et al.*, 1045
In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971

NERVOUS SYSTEM
Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637
Human mandibular canal arises from three separate canals innervating different tooth groups, The. Chávez-Lomelí, M.E., *et al.*, 1540

NEURAL CREST
Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747

NEUTROPHILS
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

NHANES III (see Dental Health Surveys)

NICOTINE
Long-term use of nicotine chewing gum and mercury exposure from dental amalgam fillings. Sällsten, G., *et al.*, 594

NORTH CAROLINA
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

NUCLEAR MAGNETIC RESONANCE
IR and NMR analyses of hardening and maturation of glass-ionomer cement. Matsuya, S., *et al.*, 1920

ODONTOBLASTS
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650
Immunolocalization of fibronectin during reparative dentinogenesis in human teeth after pulp capping with calcium hydroxide. Yoshiba, K., *et al.*, 1590
In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971
Induced hypoxia in rat pulp and periapex demonstrated by ^{3}H-misonidazole retention. Baumgardner, K.R., *et al.*, 1753
Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

ONTARIO
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

OPOSSUMS
Cloning, DNA sequence, and alternative splicing of opossum amelogenin mRNAs. Hu, C.-C., *et al.*, 1728

OPTICS
Analysis of edge-losses in reflectance measurements of pigmented maxillofacial elastomer. Johnston, W.M., *et al.*, 752

ORAL CAVITY (see Mouth)

ORAL HEALTH
Coronal and root caries in the dentition of adults in the United States, 1988-1991. Winn, D.M., *et al.*, 642*
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*
Denture use and the technical quality of dental prostheses among persons 18-74 years of age: United States, 1988-1991. Redford, M., *et al.*, 714*
Foreword: oral health in the United States, 1988-1991: the first three years of the third National Health and Nutrition Examination Survey. Kleinman, D.V. and Drury, T.F., 617*
Overview of the oral health component of the 1988-1991 National Health and Nutrition Examination Survey (NHANES III-Phase 1), An. Drury, T.F., *et al.*, 620*
Periodontal status in the United States, 1988-91: prevalence, extent, and demographic variation. Brown, L.J., *et al.*, 672*
Poor oral health and coronary heart disease. Joshipura, K.J., *et al.*, 1631
Prevalence and distribution of selected occlusal characteristics in the US population, 1988-1991. Brunelle, J.A., *et al.*, 706*
Prevalence of dental sealants in the US population: findings from NHANES III, 1988-91, The. Selwitz, R.H., *et al.*, 652*
Prevalence of incisor trauma in persons 6 to 50 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 696*
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*
Tooth retention and tooth loss in the permanent dentition of adults: United States, 1988-1991. Marcus, S.E., *et al.*, 684*
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

ORAL MUCOSA
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827
Comparison of the ability of intra-oral and extra-oral fibroblasts to stimulate extracellular matrix reorganization in a model of wound contraction, A. Stephens, P., *et al.*, 1358

ORGAN CULTURE
Electrical stimulation of masseter muscles maintains condylar cartilage in long-term organ culture. Pirttiniemi, P. and Kantomaa, T., 1365

ORTHODONTIC BRACKETS
Trial production of titanium orthodontic brackets fabricated by metal injection molding (MIM) with sintering. Deguchi, T., *et al.*, 1491

ORTHODONTICS
Interview with Coenraad F.A. Moorrees, An. Horowitz, S.L., 1342

ORTHODONTICS, CORRECTIVE
Angiogenesis in human dental pulp following orthodontic tooth movement. Derringer, K.A., *et al.*, 1761
Inhibitory effect of the topical administration of a bisphosphonate (Risedronate) on root resorption incident to orthodontic tooth movement in rats. Igarashi, K., *et al.*, 1644

OSTEOCLASTS
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650

OSTEOGENESIS
Effect of demineralized bone matrix on the healing of intramembranous bone grafts in rabbit skull defects, The. Rabie, A.B.M., *et al.*, 1045
Expression of bone morphogenetic proteins by osteoinductive and non-osteoinductive human osteosarcoma cells. Raval, P., *et al.*, 1518

OSTEOGENESIS IMPERFECTA
Immunoreactivity of tenascin-C in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L., *et al.*, 581

OSTEOPONTIN
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650

OSTEOSARCOMA
Expression of bone morphogenetic proteins by osteoinductive and non-osteoinductive human osteosarcoma cells. Raval, P., *et al.*, 1518

PALATE
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637

Cell proliferation and expression of EGF, TGF-α, and EGF receptor in the developing primary palate. Iamaroon, A., *et al.*, 1534
Palatal displacement of canine is genetic and related to congenital absence of teeth. Pirinen, S., *et al.*, 1742

PALLADIUM
Microstructure and segregation behavior of palladium in silver-copper-palladium alloys. Chen, K.I., *et al.*, 1497

PARASYMPATHETIC NERVOUS SYSTEM
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637

PCR (see Polymerase Chain Reaction)

PELLICLE
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779
Temporal and compositional characteristics of salivary protein adsorption to hydroxyapatite. Lamkin, M.S., 803

PEPTIDOGLYCAN
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

PERIAPICAL CYST (see Radicular Cyst)

PERIAPICAL TISSUE
Induced hypoxia in rat pulp and periapex demonstrated by ^{3}H-misonidazole retention. Baumgardner, K.R., *et al.*, 1753

PERIODONTAL ATTACHMENT LOSS
Serum cotinine levels, smoking, and periodontal attachment loss. González, Y.M., *et al.*, 796

PERIODONTAL DISEASES
Dentists' role in halting antimicrobial resistance. Slots, J. and Pallasch, T.J., 1338, 1811 (*Erratum*)
Exposure of periodontal ligament cells to methyl mercaptan reduces intracellular pH and inhibits cell migration. Lancero, H., *et al.*, 1994
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664
Guest editorial: Antimicrobials in dentistry: with knowledge comes responsibility. Loesche, W.J., 1432
Periodontal status in the United States, 1988-91: prevalence, extent, and demographic variation. Brown, L.J., *et al.*, 672*
Poor oral health and coronary heart disease. Joshipura, K.J., *et al.*, 1631

PERIODONTAL LIGAMENT
Comparative study of the chemotactic responses of periodontal ligament cells and gingival fibroblasts to polypeptide growth factors. Nishimura, F. and Terranova, V.P., 986
Exposure of periodontal ligament cells to methyl mercaptan reduces intracellular pH and inhibits cell migration. Lancero, H., *et al.*, 1994
Expression of keratinocyte growth factor in periapical lesions. Gao, Z., *et al.*, 1658
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664
Microvascular luminal volume changes in aged mouse periodontal ligament. Sims, M.R., *et al.*, 1503
Periodontal ligament cells are chemotactic to fibroblast collagenase. Terranova, V.P. and Nishimura, F., 993

PERIODONTITIS
Effects of Actinomyces amphiphile on the fluidity of endothelial cells: a spin label study. Hamada, Y., 1002
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986
Protection of gingival epithelium against complement-mediated damage by strong expression of the membrane attack complex inhibitor protectin (CD59). Rautemaa, R. and Meri, S., 568

PERIODONTOSIS
Human neutrophil gelatinase and associated lipocalin in adult and localized juvenile periodontitis. Westerlund, U., *et al.*, 1553

pH (see Hydrogen-Ion Concentration)

PHORBOL MYRISTATE ACETATE (see Tetradecanoylphorbol Acetate)

PHOSPHOPROTEINS
Electrophoretic gels of dentin matrix proteins as diffusion media for *in vitro* mineralization. Wada, Y., *et al.*, 1381

PHOSPHORIC ACIDS
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706

PIGMENTATION
Analysis of edge-losses in reflectance measurements of pigmented maxillofacial elastomer. Johnston, W.M., *et al.*, 752

PIGS (see Swine)

PIT AND FISSURE SEALANTS
Assessment of the efficacy of amorphous calcium phosphate/methacrylate composites in remineralizing caries-like lesions artificially produced in bovine enamel. Skrtic, D., *et al.*, 1679
Estimation of caries prevalence in small areas, The. Leroux, B.G., *et al.*, 1947
Influence of dft index on sealant success: a 48-month survival analysis, The. Bravo, M., *et al.*, 768
Michael Buonocore and the Eastman Dental Center: a historic perspective on sealants. Handelman, S.L. and Shey, Z., 529
Prevalence of dental sealants in the US population: findings from NHANES III, 1988-91, The. Selwitz, R.H., *et al.*, 652*

POLYMERASE CHAIN REACTION
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735
Expression of keratinocyte growth factor in periapical lesions. Gao, Z., *et al.*, 1658

POLYMERIZATION
Influence of comonomer composition on dimethacrylate resin properties for dental composites, The. Anseth, K.S., *et al.*, 1607

POLYMERIZATION CONTRACTION
Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477
Influence of comonomer composition on dimethacrylate resin properties for dental composites, The. Anseth, K.S., *et al.*, 1607

POLYMORPHONUCLEAR LEUKOCYTES (see Neutrophils)

POLYSOMNOGRAPHY
Sleep bruxism: validity of clinical research diagnostic criteria in a controlled polysomnographic study. Lavigne, G.J., *et al.*, 546

PORCELAIN (see Dental Porcelain)

PRACTICE GUIDELINES
Relationships between clinician variability and radiographic guidelines. Flack, V.F., *et al.*, 775

PREMOLAR (see Bicuspid)

PREVOTELLA
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

PROBABILISTIC MODELS (see Models, Statistical)

PROCOLLAGEN
Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767

PROGNATHISM
Tongue volume in human female adults with mandibular prognathism. Yoo, E., *et al.*, 1957

PROTEINASES
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

PROTEINS
Protein characterization of fluorosed human enamel. Wright, J.T., *et al.*, 1936

PROTEOGLYCANS
Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767

PTERYGOID MUSCLES
Morphometric investigation of myotube formation in rabbit embryo medial pterygoid muscle, A. Benoît, and Baudoin, C., 1835

PUMP (see Biological Transport, Active)

RABBITS
Effect of demineralized bone matrix on the healing of intramembranous bone grafts in rabbit skull defects, The. Rabie, A.B.M., *et al.*, 1045
Morphometric investigation of myotube formation in rabbit embryo medial pterygoid muscle, A. Benoît, and Baudoin, C., 1835

RACIAL GROUPS (see Ethnic Groups)

RADICULAR CYST
Expression of keratinocyte growth factor in periapical lesions. Gao, Z., *et al.*, 1658

RADIOGRAPHY, DENTAL
Relationships between clinician variability and radiographic guidelines. Flack, V.F., *et al.*, 775

RATS
Cariogenicity of *Streptococcus mutans* strains with defects in fructan metabolism assessed in a program-fed specific-pathogen-free rat model. Burne, R.A., *et al.*, 1572
Induced hypoxia in rat pulp and periapex demonstrated by ^{3}H-misonidazole retention. Baumgardner, K.R., *et al.*, 1753
Inflammatory lesions of the tooth pulp induce changes in brainstem neurons of the rat trigeminal subnucleus oralis. Torneck, C.D., *et al.*, 553
Inhibitory effect of the topical administration of a bisphosphonate (Risedronate) on root resorption incident to orthodontic tooth movement in rats. Igarashi, K., *et al.*, 1644
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575
Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

RECEPTORS, DOPAMINE D2
Striatal D2 receptor binding in sleep bruxism: a controlled study with iodine-123-iodobenzamide and single-photon-emission computed tomography. Lobbezoo, F., *et al.*, 1804

RECEPTORS, EPIDERMAL GROWTH FACTOR-UROGASTRONE
Cell proliferation and expression of EGF, TGF-α, and EGF receptor in the developing primary palate. Iamaroon, A., *et al.*, 1534
Gene defect in hypodontia: exclusion of EGF, EGFR, and FGF-3 as candidate genes. Arte, S., *et al.*, 1346

RECEPTORS, FIBRONECTIN
Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664

RECEPTORS, MUSCARINIC CHOLINERGIC
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575

RECEPTORS, VASOACTIVE INTESTINAL PEPTIDE
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575

RECEPTORS, VITRONECTIN
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650

REFLEX
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637

REMINERALIZATION (see Tooth Remineralization)

REPRODUCIBILITY OF RESULTS
Relationships between clinician variability and radiographic guidelines. Flack, V.F., *et al.*, 775

RESEARCH
Alternative medicine: more than chicken soup? Barnett, M.L., 1721
Changing face of dental research: blurring the boundaries between industry and academia, The. Boyan, B.D., 1426
Developing ethical standards for responsible research: why? form? functions? process? outcomes? Frankel, M.S., 832@
Early days of electron microscopy in dental research, The. Scott, D.B., 962
Guest editorial: art and science, culture and dental research. Newman, H.N., 526
Guest editorial: three new rules of life: some additional modest advice for those embarking on a career in dental research. Barnett, M.L., 960
Guest editorial: Trashing the dental literature—misleading the general practitioners: a point of view. Stanley, H.R., 1624
"If not us, then who?" Greenspan, J.S., 1336
Interview with Coenraad F.A. Moorrees, An. Horowitz, S.L., 1342

On being a scientist in a rapidly changing world. Mandel, I.D., 841@
Proceedings of a symposium, toward responsible research conduct: the role of scientific societies. Bebeau, M.J. and Holt, S.C., 823@
Process and procedures for dealing with misconduct: a necessity or a nightmare? Bersoff, D.N., 836@
Role of the AADR in promoting research integrity: perspectives and consensus statements, The. Bebeau, M.J. and Holt, S.C., 856@
Serendipity or luck: stumbling on gingival crevicular fluid. Krasse, B., 1627
Survey of ethical issues in dental research. Bebeau, M.J. and Davis, E.L., 845@

RESEARCH DESIGN
Overview of the oral health component of the 1988-1991 National Health and Nutrition Examination Survey (NHANES III-Phase 1), An. Drury, T.F., *et al.*, 620*

RESEARCH SUPPORT
Changing face of dental research: blurring the boundaries between industry and academia, The. Boyan, B.D., 1426

RESIN-BONDED BRIDGES (see Denture, Partial, Fixed, Resin-Bonded)

RESIN COMPOSITES (see Composites)

RESINS
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-

butylborane-initiated luting agents. Taira, Y., *et al.*, 1859
Dental materials developments in the UK: a personal view. McLean, J.W., 1816
Dentin bonding: SEM comparison of the resin-dentin interface in primary and permanent teeth. Nör, J.E., *et al.*, 1396
Early and long-term wear of conventional and resin-modified glass ionomers. de Gee, A.J., *et al.*, 1613
Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477
Influence of comonomer composition on dimethacrylate resin properties for dental composites, The. Anseth, K.S., *et al.*, 1607
Regional strengths of bonding agents to cervical sclerotic root dentin. Yoshiyama, M., *et al.*, 1404
Resin permeation into acid-conditioned, moist, and dry dentin: a paradigm using water-free adhesive primers. Tay, F.R., *et al.*, 1034

RNA
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827

RNA, MESSENGER
Chemokine expression in human oral keratinocyte cell lines and keratinzed mucosa. Bickel, M., *et al.*, 1827
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735
Cloning, DNA sequence, and alternative splicing of opossum amelogenin mRNAs. Hu, C.-C., *et al.*, 1728
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650
Expression of keratinocyte growth factor in periapical lesions. Gao, Z., *et al.*, 1658

RNA SPLICING, ALTERNATIVE (see Alternative Splicing)

ROOT CARIES
Constant composition dissolution kinetics studies of human dentin. Paschalis, E.P., *et al.*, 1019
Coronal and root caries in the dentition of adults in the United States, 1988-1991. Winn, D.M., *et al.*, 642*
Evaluation of sodium fluorescein for quantitative diagnosis of root caries. van der Veen, M.H., *et al.*, 588
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

ROOT RESORPTION
Inhibitory effect of the topical administration of a bisphosphonate (Risedronate) on root resorption incident to orthodontic tooth movement in rats. Igarashi, K., *et al.*, 1644

RT-PCR (see Polymerase Chain Reaction)

RUBBER
Analysis of edge-losses in reflectance measurements of pigmented maxillofacial elastomer. Johnston, W.M., *et al.*, 752

RURAL HEALTH
Taste preference for sweetness in urban and rural populations in Iraq. Jamel, H.A., *et al.*, 1879

SALIVA
Co-adhesion of oral microbial pairs under flow in the presence of saliva and lactose. Bos, R., *et al.*, 809
Differential expression of human high-molecular-weight salivary mucin (MG1) and low-molecular-weight salivary mucin (MG2). Nielsen, P.A., *et al.*, 1820
Flow rate of unstimulated human labial gland saliva, The. Ferguson, D.B., 980
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779
Reactivity of *Candida albicans* germ tubes with salivary secretory IgA. Pontón, J., *et al.*, 1979
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789

SALIVA, ARTIFICIAL
Filler leachability of composites stored in distilled water or artificial saliva. Söderholm, K.-J.M., *et al.*, 1692

SALIVARY GLANDS
Differential expression of human high-molecular-weight salivary mucin (MG1) and low-molecular-weight salivary mucin (MG2). Nielsen, P.A., *et al.*, 1820
Flow rate of unstimulated human labial gland saliva, The. Ferguson, D.B., 980
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575

SALIVARY PROTEINS
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789
Temporal and compositional characteristics of salivary protein adsorption to hydroxyapatite. Lamkin, M.S., 803

SCIENCE
Guest editorial: art and science, culture and dental research. Newman, H.N., 526
On being a scientist in a rapidly changing world. Mandel, I.D., 841@

SCIENTIFIC MISCONDUCT
Developing ethical standards for responsible research: why? form? functions? process? outcomes? Frankel, M.S., 832@
Guest editorial: Responsible public communication: on how not to become a clown in the media circus. Barnett, M.L., 1528
Guest editorial: Trashing the dental literature—misleading the general practitioners: a point of view. Stanley, H.R., 1624
Moral foundations of scientific ethics and responsibility, The. Camenisch, P.F., 825@
On being a scientist in a rapidly changing world. Mandel, I.D., 841@
Proceedings of a symposium, toward responsible research conduct: the role of scientific societies. Bebeau, M.J. and Holt, S.C., 823@
Process and procedures for dealing with misconduct: a necessity or a nightmare? Bersoff, D.N., 836@
Role of the AADR in promoting research integrity: perspectives and consensus statements, The. Bebeau, M.J. and Holt, S.C., 856@
Survey of ethical issues in dental research. Bebeau, M.J. and Davis, E.L., 845@

SCLEROSIS
Regional strengths of bonding agents to cervical sclerotic root dentin. Yoshiyama, M., *et al.*, 1404

SEALANTS (see Pit and Fissure Sealants)

SEQUENCE ANALYSIS, DNA
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735
Cloning, DNA sequence, and alternative splicing of opossum amelogenin mRNAs. Hu, C.-C., *et al.*, 1728

SEX
Coronal and root caries in the dentition of adults in the United States, 1988-1991. Winn, D.M., *et al.*, 642*
Coronal caries in the primary and permanent dentition of children and adolescents 1-17 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 631*
Denture use and the technical quality of dental prostheses among persons 18-74 years of age: United States, 1988-1991. Redford, M., *et al.*, 714*
Overview of the oral health component of the 1988-1991 National Health and Nutrition Examination Survey

(NHANES III-Phase 1), An. Drury, T.F., *et al.*, 620*
Periodontal status in the United States, 1988-91: prevalence, extent, and demographic variation. Brown, L.J., *et al.*, 672*
Prevalence and distribution of selected occlusal characteristics in the US population, 1988-1991. Brunelle, J.A., *et al.*, 706*
Prevalence of dental sealants in the US population: findings from NHANES III, 1988-91, The. Selwitz, R.H., *et al.*, 652*
Prevalence of incisor trauma in persons 6 to 50 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 696*
Selected restoration and tooth conditions: United States, 1988-1991. White, B.A., *et al.*, 661*
Tooth retention and tooth loss in the permanent dentition of adults: United States, 1988-1991. Marcus, S.E., *et al.*, 684*

SHEAR BOND STRENGTH
Shear strength of composite bonded to Er:YAG laser-prepared dentin. Visuri, S.R., *et al.*, 599

SHRINKAGE (see Contraction; Polymerization Contraction)

SIALIC ACIDS
Utilization of sialic acid by viridans streptococci. Byers, H.L., *et al.*, 1564

SIALOGLYCOPROTEINS
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650

SILANES
Filler leachability of composites stored in distilled water or artificial saliva. Söderholm, K.-J.M., *et al.*, 1692

SILVER
Microstructure and segregation behavior of palladium in silver-copper-palladium alloys. Chen, K.I., *et al.*, 1497

SKULL
Effect of demineralized bone matrix on the healing of intramembranous bone grafts in rabbit skull defects, The. Rabie, A.B.M., *et al.*, 1045

SLEEP DISORDERS
Sleep bruxism: validity of clinical research diagnostic criteria in a controlled polysomnographic study. Lavigne, G.J., *et al.*, 546
Striatal D2 receptor binding in sleep bruxism: a controlled study with iodine-123-iodobenzamide and single-photon-emission computed tomography. Lobbezoo, F., *et al.*, 1804

SMEAR LAYER
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706

SMOKING
Serum cotinine levels, smoking, and periodontal attachment loss. González, Y.M., *et al.*, 796

SOCIAL ENVIRONMENT
Variations in the social impact of oral conditions among older adults in South Australia, Ontario, and North Carolina. Slade, G.D., *et al.*, 1439

SOCIETIES, DENTAL (see IADR/AADR)

SOLUBILITY
Constant composition dissolution kinetics studies of human dentin. Paschalis, E.P., *et al.*, 1019

SPECTROMETRY, FLUORESCENCE
Reactivity of *Candida albicans* germ tubes with salivary secretory IgA. Pontón, J., *et al.*, 1979

SPECTROMETRY, X-RAY EMISSION
Surface spectroscopy of apatitic materials: limitations and concerns. Wieliczka, D.M., *et al.*, 1865

SPECTROPHOTOMETRY
Analysis of edge-losses in reflectance measurements of pigmented maxillofacial elastomer. Johnston, W.M., *et al.*, 752

SPECTROPHOTOMETRY, INFRARED
IR and NMR analyses of hardening and maturation of glass-ionomer cement. Matsuya, S., *et al.*, 1920

SPECTRUM ANALYSIS
Impedance spectroscopy of teeth with and without approximal caries lesions—an *in vitro* study. Huysmans, M.-C.D.N.J.M., *et al.*, 1871
Quantitative analysis of the dentin adhesive interface by auger spectroscopy. Eick, J.D., *et al.*, 1027

SPIN LABELS
Effects of Actinomyces amphiphile on the fluidity of endothelial cells: a spin label study. Hamada, Y., 1002

STANDARDS
Developing ethical standards for responsible research: why? form? functions? process? outcomes? Frankel, M.S., 832@
Proceedings of a symposium, toward responsible research conduct: the role of scientific societies. Bebeau, M.J. and Holt, S.C., 823@
Process and procedures for dealing with misconduct: a necessity or a nightmare? Bersoff, D.N., 836@
Role of the AADR in promoting research integrity: perspectives and consensus statements, The. Bebeau, M.J. and Holt, S.C., 856@

STARCH
Cariogenicity depends more on diet than the prevailing mutans streptococcal species. van Palenstein Helderman, W.H., *et al.*, 535

STATISTICAL MODELS (see Models, Statistical)

STOMATITIS, APHTHOUS
Expression of laminin 5, fibronectin, and epithelium-associated integrins in recurrent aphthous ulcer. Richards, D.W., *et al.*, 1512

STRENGTH (see Tensile Strength)

STREPTOCOCCUS
Co-adhesion of oral microbial pairs under flow in the presence of saliva and lactose. Bos, R., *et al.*, 809
Final pH of bacteria comprising the predominant flora on sound and carious human root and enamel surfaces, The. van Houte, J., *et al.*, 1008
Inhibiting effect of aqueous *Azadirachta indica* (Neem) extract upon bacterial properties influencing *in vitro* plaque formation. The. Wolinsky, L.E., *et al.*, 816
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

STREPTOCOCCUS GORDONII
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789

STREPTOCOCCUS MUTANS
Cariogenicity depends more on diet than the prevailing mutans streptococcal species. van Palenstein Helderman, W.H., *et al.*, 535
Cariogenicity of *Streptococcus mutans* strains with defects in fructan metabolism assessed in a program-fed specific-pathogen-free rat model. Burne, R.A., *et al.*, 1572
Emergence of multiple xylitol-resistant (fructose PTS^-) mutants from human isolates of mutans streptococci during growth on dietary sugars in the presence of xylitol. Trahan, L., *et al.*, 1892
Incorporation of caseinoglycomacropeptide and caseinophosphopeptide into the salivary pellicle inhibits adherence of mutans streptococci. Schüpbach, P., *et al.*, 1779
Prediction of secondary caries around tooth-colored restorations: a clinical and microbiological study. Kidd, E.A.M. and Beighton, D., 1942
Vaccine against dental caries—a personal view. Bowen, W.H., 1530

STREPTOCOCCUS ORALIS
Saliva protein binding to streptococcal layers placed at different oral sites in 48 persons. Rudney, J.D., *et al.*, 1789

STREPTOCOCCUS VIRIDANS
Utilization of sialic acid by viridans streptococci. Byers, H.L., *et al.*, 1564

STRESS, MECHANICAL
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743
Anatomic and directional variation in the mechanical properties of the mandibular condyle in pigs. Teng, S. and Herring, S.W., 1842
Early and long-term wear of conventional and resin-modified glass ionomers. de Gee, A.J., *et al.*, 1613
Finite element stress analysis of three filling techniques for class V light-cured composite restorations. Winkler, M.M., *et al.*, 1477

STRESS ANALYSIS (see Dental Stress Analysis)

SUCROSE
Accumulation of fermentable sugars and metabolic acids in food particles that become entrapped on the dentition. Kashket, S., *et al.*, 1885
Cariogenicity of *Streptococcus mutans* strains with defects in fructan metabolism assessed in a program-fed specific-pathogen-free rat model. Burne, R.A., *et al.*, 1572
Emergence of multiple xylitol-resistant (fructose PTS^-) mutants from human isolates of mutans streptococci during growth on dietary sugars in the presence of xylitol. Trahan, L., *et al.*, 1892
Plaque pH and microflora of dental plaque on sound and carious root surfaces. Aamdal-Scheie, A., *et al.*, 1901

SUGARS (see Carbohydrates)

SULFHYDRYL COMPOUNDS
Exposure of periodontal ligament cells to methyl mercaptan reduces intracellular pH and inhibits cell migration. Lancero, H., *et al.*, 1994

SURFACE PROPERTIES
Surface spectroscopy of apatitic materials: limitations and concerns. Wieliczka, D.M., *et al.*, 1865
Threshold effects of Nd and Ho:YAG laser-induced surface modification on demineralization of dentin surfaces. Kinney, J.H., *et al.*, 1388

SURVEYS (see Dental Health Surveys)

SURVIVAL ANALYSIS
Influence of dft index on sealant success: a 48-month survival analysis, The. Bravo, M., *et al.*, 768
Maximum likelihood estimates for the lifetime of bonded dental prostheses. de Rijk, W.G., *et al.*, 1700
Use of the Weibull Hazard model to estimate age-specific probability of permanent tooth loss. Otani, K., *et al.*, 1458

SWINE
Anatomic and directional variation in the mechanical properties of the mandibular condyle in pigs. Teng, S. and Herring, S.W., 1842
Cloning, cDNA sequence, and alternative splicing of porcine amelogenin mRNAs. Hu, C.-C., *et al.*, 1735

SYNDROME
Syndromes, syndromes, and more syndromes. Gorlin, R.J., 732

T-LYMPHOCYTES
CD44-hyaluronate interaction participates in the adherence of T-lymphocytes to gingival fibroblasts. Murakami, S., *et al.*, 1545
Highly virulent strains of herpes simplex virus fail to kill mice following infection *via* gingival route. Monma, Y., *et al.*, 974

TANNIC ACID
Inhibiting effect of aqueous *Azadirachta indica* (Neem) extract upon bacterial properties influencing *in vitro* plaque formation. The. Wolinsky, L.E., *et al.*, 816

TASTE
Taste preference for sweetness in urban and rural populations in Iraq. Jamel, H.A., *et al.*, 1879

TEMPERING
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743

TEMPORAL MUSCLE
Jaw movement responses to electrical stimulation of different parts of the human temporalis muscle. Zwignenburg, A.J., 1798

TENASCIN
Immunoreactivity of tenascin-C in dentin matrix in dentinogenesis imperfecta associated with osteogenesis imperfecta. Lukinmaa, P.-L., *et al.*, 581

TENSILE STRENGTH
Adhesive bonding to dentin with ferrous chloride primers and tri-*n*-butylborane-initiated luting agents. Taira, Y., *et al.*, 1859
Bonding to intact dentin. Nakabayashi, N. and Saimi, Y., 1706
Effects of flaw size and auto-glaze treatment on porcelain strength. Griggs, J.A., *et al.*, 1414
Regional strengths of bonding agents to cervical sclerotic root dentin. Yoshiyama, M., *et al.*, 1404

TETRACYCLINE RESISTANCE
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743

TETRADECANOYLPHORBOL ACETATE
CD44-hyaluronate interaction participates in the adherence of T-lymphocytes to gingival fibroblasts. Murakami, S., *et al.*, 1545

THERMAL STRESS
Analysis of tempering stresses in metal-ceramic disks. DeHoff, P.H., *et al.*, 743

TITANIUM
Trial production of titanium orthodontic brackets fabricated by metal injection molding (MIM) with sintering. Deguchi, T., *et al.*, 1491

TOMOGRAPHY, EMISSION-COMPUTED, SINGLE-PHOTON
Striatal D2 receptor binding in sleep bruxism: a controlled study with iodine-123-iodobenzamide and single-photon-emission computed tomography. Lobbezoo, F., *et al.*, 1804

TONGUE
Tongue, jaw, and lip muscle activity and jaw movement during experimental chewing efforts in man. Takada, K., *et al.*, 1598
Tongue volume in human female adults with mandibular prognathism. Yoo, E., *et al.*, 1957

TOOTH
Dentin bonding: SEM comparison of the resin-dentin interface in primary and permanent teeth. Nör, J.E., *et al.*, 1396
Human mandibular canal arises from three separate canals innervating different tooth groups, The. Chávez-Lomelí, M.E., *et al.*, 1540
Immunohistochemical localization of HLA-DR-positive cells in unerupted and erupted normal and carious human teeth. Yoshiba, N., *et al.*, 1585
Impedance spectroscopy of teeth with and without approximal caries lesions—an *in vitro* study. Huysmans, M.-C.D.N.J.M., *et al.*, 1871

TOOTH, DECIDUOUS
Dentin bonding: SEM comparison of the resin-dentin interface in primary and permanent teeth. Nör, J.E., *et al.*, 1396
Enamel defects in the deciduous dentition as a potential predictor of defects in the permanent dentition of 8- and 9-year-old children in fluoridated Cheshire, England. Milsom, K.M., *et al.*, 1015

TOOTH ABNORMALITIES
Abnormal enamel and pulp dimensions in familial dysautonomia. Mass, E., *et al.*, 1747

Palatal displacement of canine is genetic and related to congenital absence of teeth. Pirinen, S., *et al.*, 1742

TOOTH ABRASION
Filler leachability of composites stored in distilled water or artificial saliva. Söderholm, K.-J.M., *et al.*, 1692

TOOTH DEMINERALIZATION
Evaluation of sodium fluorescein for quantitative diagnosis of root caries. van der Veen, M.H., *et al.*, 588
Interaction of citric acid with hydroxyapatite: surface exchange of ions and precipitation of calcium citrate. Misra, D.N., 1418
Resin permeation into acid-conditioned, moist, and dry dentin: a paradigm using water-free adhesive primers. Tay, F.R., *et al.*, 1034
Threshold effects of Nd and Ho:YAG laser-induced surface modification on demineralization of dentin surfaces. Kinney, J.H., *et al.*, 1388

TOOTH INJURIES
Prevalence of incisor trauma in persons 6 to 50 years of age: United States, 1988-1991. Kaste, L.M., *et al.*, 696*

TOOTH LOSS
Incidence of and risk factors for tooth loss in a population of older Canadians. Locker, D., *et al.*, 783
Poor oral health and coronary heart disease. Joshipura, K.J., *et al.*, 1631
Tooth retention and tooth loss in the permanent dentition of adults: United States, 1988-1991. Marcus, S.E., *et al.*, 684*
Use of the Weibull Hazard model to estimate age-specific probability of permanent tooth loss. Otani, K., *et al.*, 1458

TOOTH MOVEMENT, MINOR
Angiogenesis in human dental pulp following orthodontic tooth movement. Derringer, K.A., *et al.*, 1761
Inhibitory effect of the topical administration of a bisphosphonate (Risedronate) on root resorption incident to orthodontic tooth movement in rats. Igarashi, K., *et al.*, 1644
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562

TOOTH REMINERALIZATION
Assessment of the efficacy of amorphous calcium phosphate/methacrylate composites in remineralizing caries-like lesions artificially produced in bovine enamel. Skrtic, D., *et al.*, 1679
Effect of a fluoridated toothpaste on dentinal lesions in plaque-filled grooves: an intra-oral crossover study, The. Lagerweij, M.D., *et al.*, 1687

TOOTH RESORPTION
Expression of adhesion molecules during tooth resorption in feline teeth: a model system for aggressive osteoclastic activity. Shigeyama, Y., *et al.*, 1650

TOOTH ROOT
Inhibitory effect of the topical administration of a bisphosphonate (Risedronate) on root resorption incident to orthodontic tooth movement in rats. Igarashi, K., *et al.*, 1644
Regional strengths of bonding agents to cervical sclerotic root dentin. Yoshiyama, M., *et al.*, 1404

TOOTH ROOT CARIES (see Root Caries)

TOOTHPASTE
Effect of a fluoridated toothpaste on dentinal lesions in plaque-filled grooves: an intra-oral crossover study, The. Lagerweij, M.D., *et al.*, 1687

TRANSFORMING GROWTH FACTOR ALPHA
Cell proliferation and expression of EGF, TGF-α, and EGF receptor in the developing primary palate. Iamaroon, A., *et al.*, 1534

TRANSFORMING GROWTH FACTOR BETA
Expression of bone morphogenetic proteins by osteoinductive and non-osteoinductive human osteosarcoma cells. Raval, P., *et al.*, 1518
Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767

TRANSPORT PROTEINS (see Carrier Proteins)

TREPONEMA DENTICOLA
Membrane components of *Treponema denticola* trigger proteinase release from human polymorphonuclear leukocytes. Ding, Y., *et al.*, 1986

TRICLOSAN
Hydrolysis of triclosan monophosphate by dental plaque and selected species of oral micro-organisms. Greenman, J. and Nelson, D.G.A., 1578

TRIGEMINAL NERVE
Inflammatory lesions of the tooth pulp induce changes in brainstem neurons of the rat trigeminal subnucleus oralis. Torneck, C.D., *et al.*, 553
Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

TUMOR NECROSIS FACTOR-ALPHA
Interleukin (IL)-1β, IL-6, tumor necrosis factor-α, epidermal growth factor, and β2-microglobulin levels are elevated in gingival crevicular fluid during human orthodontic tooth movement. Uematsu, S., *et al.*, 562

ULTRASTRUCTURE
Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

UNITED KINGDOM
Dental materials developments in the UK: a personal view. McLean, J.W., 1816

URBAN HEALTH
Taste preference for sweetness in urban and rural populations in Iraq. Jamel, H.A., *et al.*, 1879

VACCINATION
Vaccine against dental caries—a personal view. Bowen, W.H., 1530

VASOACTIVE INTESTINAL PEPTIDE
Regulation of mucous acinar exocrine secretion with age. Culp, D.J. and Richardson, L.A., 575

VASODILATION
Bilateral reflex vasodilation in the palatal mucosa evoked by unilateral tooth-pulp stimulation in the cat. Shoji, N., 1637

VITRONECTIN
Protection of gingival epithelium against complement-mediated damage by strong expression of the membrane attack complex inhibitor protectin (CD59). Rautemaa, R. and Meri, S., 568

WASHINGTON
Estimation of caries prevalence in small areas, The. Leroux, B.G., *et al.*, 1947

WATER
Filler leachability of composites stored in distilled water or artificial saliva. Söderholm, K.-J.M., *et al.*, 1692
Total fluoride intake in children aged 3 to 4 years—a longitudinal study. Guha-Chowdhury, N., *et al.*, 1451

WATER FLUORIDATION (see Fluoridation)

WEAR (see Tooth Abrasion)

WEAR RESISTANCE (see Abrasion Resistance)

WEIBULL HAZARD MODEL (see Models, Statistical)

WHEAT GERM AGGLUTININ-HORSERADISH PEROXIDASE CONJUGATE

Ultrastructural study of the relationship between sensory trigeminal nerves and odontoblasts in rat dentin/pulp as demonstrated by the anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), An. Ibuki, T., *et al.*, 1963

WOMEN

Tongue volume in human female adults with mandibular prognathism. Yoo, E., *et al.*, 1957

WOUND HEALING

Comparison of the ability of intra-oral and extra-oral fibroblasts to stimulate extracellular matrix reorganization in a model of wound contraction, A. Stephens, P., *et al.*, 1358

Exposure of periodontal ligament cells to methyl mercaptan reduces intracellular pH and inhibits cell migration. Lancero, H., *et al.*, 1994

Expression of laminin 5, fibronectin, and epithelium-associated integrins in recurrent aphthous ulcer. Richards, D.W., *et al.*, 1512

Glucose-mediated alteration of cellular function in human periodontal ligament cells. Nishimura, F., *et al.*, 1664

Human granulation-tissue fibroblasts show enhanced proteoglycan gene expression and altered response to TGF-β1. Häkkinen, L., *et al.*, 1767

In vitro model of human dental pulp repair, An. Magloire, H., *et al.*, 1971

X-RAY DIFFRACTION

Effect of cubic leucite stabilization on the flexural strength of feldspathic dental porcelain. Denry, I.L., *et al.*, 1928

Threshold effects of Nd and Ho:YAG laser-induced surface modification on demineralization of dentin surfaces. Kinney, J.H., *et al.*, 1388

XYLITOL

Emergence of multiple xylitol-resistant (fructose PTS^-) mutants from human isolates of mutans streptococci during growth on dietary sugars in the presence of xylitol. Trahan, L., *et al.*, 189
